This manual is the highly recommended companion to CPRT: A 10-Session Filial Therapy Model. Accompanied by a CD-Rom of training materials, which allows for ease of reproduction and enhanced usability, the workbook will help the facilitator of the filial training and will provide a much needed educational outline to allow filial therapists to pass their knowledge on to parents. The Treatment Manual provides a comprehensive outline and detailed guidelines for each of the ten sessions, facilitating the training process for both the parents and the therapist. The book contains a designed structure for the therapy training described in the book, with child-centered play therapy principles and skills, such as reflective listening, recognizing and responding to children's feelings, therapeutic limit setting, building children's self-esteem, and structuring required weekly play sessions with their children using a special kit of selected toys. Bratton and her co-authors recommend teaching aids, course materials, and activities for each session, as well as worksheets for parents to complete between sessions. By using this workbook and CD-Rom to accompany the CPRT book, filial therapy leaders will have a complete package for use in training parents to act as therapeutic agents with their own children. They provide the therapist with a complete package for training parents to act as therapeutic agents with their own children.

The social world is a big place, and the information can feel overwhelming at first. This two-set collection of 26 core practical frameworks

is a powerhouse of visual teaching tools that includes the most important conceptual and treatment frameworks within the Social Thinking Methodology. Each framework provides a blueprint or visual support related to one specific aspect within the complex social world, in addition to high-level, basic instruction. The collection includes a broad array of frameworks that range from assessing learners' needs to breaking down social communication, friendship, anxiety management, being with others, and many more to make the implicit explicit for social emotional learning. Core Practical Treatment Frameworks: Set 1 contains our most popular and helpful core tools with two types of frameworks. · Seven conceptual frameworks provide information specifically for interventionists to help them explore the social emotional assessment and treatment needs of specific individuals. These can be used during student study team meetings, IEP meetings, and to guide interventionists' exploration of individuals' social emotional development and treatment needs during the assessment process. · Six treatment frameworks help get started teaching core social emotional concepts directly to social learners: exploring emotions, size of the problem, and situation-based social expectations. 7 Conceptual Frameworks · 3 Aspects of Social Learning · The ILAUGH Model of Social Cognition · Social Thinking-Social Learning Tree · Social Thinking-Social Competency Model · Social Thinking Connected Frameworks · Building Blocks for Social Development of Young Children · Group Collaboration, Play and Problem Solving Scale (GPS) for Early Learners 6 Treatment Frameworks · Core Social Thinking Vocabulary · Basic Feelings & Emotions Scale · Size of the Problem and Size of the Reaction Thermometer · Social Emotional Chain Reaction · Social Behavior Map-General Observation (SBM-GO) · Social Behavior Map-GO "Lining Up to Leave the Classroom (Filled-in Template) Each framework has a graphic front and narrative back side. The front side provides a visual framework for use in team meetings with fellow interventionists or for use with students. The back side details the purpose of the framework along with instructions for using the framework, recommended age ranges, examples of how the information can guide teaching to foster development of social competencies, and recommendations for free articles and webinars, connections to other frameworks in the collection, and suggested books, online training courses and livestream events related to the concept. The majority of frameworks were first presented in print products published by Think Social Publishing, Inc., and/or in webinars, articles, On Demand courses, and conference/livestream events that can be found on the Social Thinking website. We strongly urge interventionists to explore these source products for deeper instruction, examples, and learning for using the frameworks in practice.
