Protocol is a code of established guidelines on proper etiquette and precedence which, when followed, lays the foundation for a successful event. From this foundation, the host should consider the

facets which make a particular situation unique, and from there, use imagination to design a memorable occasion. The most important consideration in planning should always be the comfort of one's guests. A clever host/hostess is able to reach a proper mixture of protocol and common sense that will enable guests to enjoy themselves completely. If this is accomplished, an event is truly successful. With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.

In the second volume of *The Origins of Totalitarianism*, the political theorist traces the decline of European colonialism and the outbreak of WWI. Since it was first published in 1951, *The Origins of Totalitarianism* has been recognized as the definitive philosophical account of the totalitarian mindset. A probing analysis of Nazism, Stalinism, and the “banality of evil”, it remains one of the most referenced works in studies and discussions of totalitarian movements around the world. In this second volume,

Imperialism, Dr. Hannah Arendt examines the cruel epoch of declining European colonial imperialism from 1884 to the outbreak of the First World War. Through portraits of Disraeli, Cecil Rhodes, Gobineau, Proust, and T.E. Lawrence, Arendt illustrates how this era ended with the decline of the nation-state and the disintegration of Europe’s class society. These two events, Arendt argues, generated totalitarianism, which in turn produced the Holocaust. “The most original and profound—therefore the most valuable—political theorist of

our times. ” —Dwight MacDonald, The New Leader Landing Party Manual Routledge This, the 30th edition of the "United States Government Printing Office Style Manual," is the first revision to this authoritative style manual since 2002. The "GPO Style Manual, as it is popularly known, is issued under the authority of section 1105 of Title 44 U.S.C., which requires the Public Printer, as head of the GPO to "determine the form and style in which the printing...ordered by a department is executed...having proper regard to economy, workmanship, and the purposes for which the work is needed." The Manual is prepared by the

GPO Style Board, composed of proofreading, printing, and Government documents specialists from within GPO, where all congressional publications, and many other key Federal Government documents are prepared. The first "GPO Style Manual" appeared in 1894. It was developed originally as a printer's stylebook to standardize word and type treatment and remains so today. Through successive editions, however, the "GPO Style Manual" has come to be widely recognized by writers and editors both within and outside the Federal Government as one of the most useful resources in the editorial arsenal. This new, revised version of the "GPO Style

Manual" has been thoroughly redesigned to make it more modern and easier to read, and the content has been updated generally throughout in keeping with current usage. Ethnicity, now being studied on a variety of scholarly and geographical fronts, is a fruitful topic for consideration in the study of the relationships between the Asian armed forces and their governments and societies. While Ethnicity and the Military of Asia

profits from recent explorations of ethnicity, it also benefits from the current interest in a close scholarly examination of the relationship between armed forces, war, and society. Since the military institutions of so many Asian societies have played or are playing leading roles in their country's government, the military has a relationship, often ambiguous, to the development of the expression of nationhood—a central factor in the new states of Asia. This study shows that policies concerning the military have importance for intergroup relations by expressing policies on ethnicity and by modifying relations between ethnic groups. One factor that correlates with

this is that policy concerning membership in the military has a relationship to the search for "modernization" and to social mobility.

Like my two other books about security and territorial issues in the U.S.-Japan relationship, *The Origins of the Bilateral Okinawa Problem: Okinawa in U.S.-Japan Relations, 1945-19523* and *The Return of the Amami Islands: The Reversion Movement and U.S.-Japan Relations*, 4 this is first and foremost a study on the "intra-alliance" dynamics in which one country, the United States, continued to occupy and administer islands that were recognized as Japanese territory but, for a number of reasons, the United States and its wartime allies felt necessary to

continue to administer. The longer this control continued, the more unnecessary it was seen by increasingly larger segments of the public and government of both countries due to the political erosion of the relationship caused by this friction. The question for policy makers and political leaders was finding the balance between security concerns, reversion demands, and national sentiment (in both countries), particularly as it related to the memory and sacrifices at Iwo Jima, in an effort to maintain friendly and cooperative relations. Eventually, the U.S.

government agreed to Japanese requests to return the islands and this was done on 26 June 1968, a full four years prior to the even more problematic, but strategically important, Okinawa.
