HMS Venomous was a destroyer of the V & W Class, the most advanced in the world when built and arguably the most successful ever. Sixty-seven were built at the end of the Great War. By the end of World War II all had been sunk or scrapped but thousands of men had served on them.After freezing in the forgotten war in the Baltic in 1919 Venomous spent the 1920s in the Mediterranean. She was in the front line when the German blitzkrieg swept across Europe and the V & Ws made high speed dashes across the Channel to bring the troops (and civilians) back from Calais, Boulogne and Dunkirk.Venomous and her sister ships escorted the Atlantic convoys which kept Britain fed and the Arctic convoys which supplied our Russian allies with the weapons to stop the German advance. She took part in Operation Pedestal which saved Malta and, as the Allies prepared for the landings in North Africa, was ordered to escort the destroyer depot ship HMS Hecla to the invasion beaches. When Hecla was torpedoed off the coast of Morocco Venomous fought the attacking U-boat and rescued 500 survivors (see back cover). Venomous escorted convoys along the coast of north Africa including the first through convoy from Gib to Alex and the invasion force to Sicily, Operation Husky.In October 1943 she returned to Britain and was converted to an Air Target ship for training Barracuda Torpedo Bomber aircrew based at Douglas in the Isle of Man. She was nearly lost in a hurricane off the east coast of Scotland before being sent to Kristiansand in Norway to accept the surrender of German naval forces.Venomous and her sister ships were all scrapped after the war but this ship biography is a fitting memorial to the V & Ws and the men who served in them.

Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. Trap Door grapples with these contradictions. The essays, conversations, and dossiers

gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered “ doors ” —entrances to visibility and recognition—that are actually “ traps, ” accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. Trap Door begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. In the second volume of The Origins of Totalitarianism, the political theorist traces the decline of European colonialism and the outbreak of WWI. Since it was first published in 1951, The Origins of Totalitarianism has been recognized as the definitive philosophical account of the totalitarian mindset. A probing analysis of Nazism, Stalinism, and the “ banality of evil ” , it remains one of the most referenced works in studies and discussions of totalitarian movements around the world. In this second volume, Imperialism, Dr. Hannah Arendt examines the cruel epoch of declining European colonial imperialism from 1884 to the outbreak of the First World War. Through portraits of Disraili, Cecil Rhodes, Gobineau, Proust, and T.E. Lawrence, Arendt illustrates how this era ended with the decline of the nation-state and the disintegration of Europe ’ s class society. These two events, Arendt argues, generated totalitarianism, which in turn produced the Holocaust. “ The most original and profound—therefore the most valuable—political theorist of our times. ” —Dwight MacDonald, The New Leader

With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.
