Four of his volumes would win the Pulitzer Prize before his death in 1963, and his body of work has since become an integral part of the American national heritage. This is the only edition to present these two classics in their original form. A Boy's Will introduced readers to Frost's unmistakable poetic voice, and in North of Boston, we find two of his most famous poems, "Mending Wall" and "The Death of the Hired Man." The Poems of Robert Frost Harvard University Press

"The sonnet is the strictest form I have behaved in, and only then by pretending it wasn't a sonnet," Frost once wrote to Louis Untermeyer. Frost wrote his sonnets in couplets, triplets, and terza rima; frequently, he combined elements of the Italian and English forms. His genius was in incorporating diverse styles, renewing reader interest in the form while retaining its accessibility. Several of the sonnets discussed are generally recognized as among the finest poems written in the twentieth century. This is the first work to examine all the 37 poems published that are, based on the poet's own prose writings on the subject, defined as true sonnets. It also provides a discussion of why some Frost works commonly accepted as sonnets do not meet his own criteria. Of course, the book provides content analyses of the sonnets with

discussions of the various structures used.

During his lifetime, Robert Frost notoriously resisted collecting his prose--going so far as to halt the publication of one prepared compilation and to "lose" the transcripts of the Charles Eliot Norton Lectures he delivered at Harvard in 1936. But for all his qualms, Frost conceded to his son that "you can say a lot in prose that verse won't let you say," and that the prose he had written had in fact "made good competition for [his] verse." This volume, the first critical edition of Robert Frost's prose, allows readers and scholars to appreciate the great American author's forays beyond poetry, and to discover in the prose that he did make public--in newspapers, magazines, journals, speeches, and books--the wit, force, and grace that made his poetry famous. The Collected Prose of Robert Frost offers an extensive and illuminating body of work, ranging from juvenilia--Frost's contributions to his high school Bulletin--to the charming "chicken stories" he wrote as a young family man for *The Eastern Poultryman* and *Farm Poultry*, to such famous essays as "The Figure a Poem Makes" and the speeches and contributions to magazines solicited when he had become the Grand Old Man of American letters. Gathered, annotated, and cross-referenced by Mark Richardson, the collection is based on extensive work in archives of Frost's manuscripts. It provides detailed notes on the author's habits of composition and on important textual issues and includes much previously

unpublished material. It is a book of boundless appeal and importance, one that should find a home on the bookshelf of anyone interested in Frost.

North of Boston (1914) is a
collection of poems by American

poet Robert Frost. Following the success of Frost's debut, *A Boy's Will* (1913), *North of Boston* was published in London to enthusiastic reviews from both Ezra Pound and W.B. Yeats. His success abroad quickly translated to critical acclaim in the United States, and Frost would eventually be recognized as a leading American poet. "Mending Wall" takes place in spring, as the people emerge from their homes to assess the damage done by the long, dark winter. Observing that parts of the stone wall on the edge of his property have fallen, the poet joins his neighbor "to walk the line / And set the wall between us once again." Although he feels they "do not need the wall," his neighbor insists that "' Good fences make good neighbours, ' " continuing down the line to reinforce the space between them. A meditation on humanity, civilization, and democracy, "Mending Wall" is an iconic and frequently anthologized poem. In "After Apple-Picking," as fall gives over to winter, the poet remembers in dreams how the "Magnified apples appear and disappear, / Stem end and blossom end" as he climbs the ladder into the heart of the tree. Both a symbol for life and a metaphor for the poetic act, apple picking leaves the poet "overtired / Of the great harvest [he himself] desired", awaiting sleep as he describes "its coming on," wondering what, if anything, it will bring. With a beautifully designed cover and professionally typeset

manuscript, this edition of Robert Frost's *North of Boston* is a classic of American literature reimagined for modern readers.
