Poetics of the Flesh U of Nebraska Press

This volume collects and translates--most for the first time--the nine volumes of poetry published by Edouard Glissant, a poet, novelist, and critic increasingly recognized as one of the great writers of the twentieth century. The poems bring to life what Glissant calls "an archipelago-like reality," partaking of the exchanges between Europe and its former colonies, between humans and their geographies, between the poet and the natural world. Reciting and re-creating histories of the African diaspora, Columbus's "discovery" of the New World, the slave trade, and the West Indies, Glissant underscores the role of poetic language in changing both past and present irrevocably. As translator Jeff Humphries writes in his introduction, Glissant's poetry embraces the aesthetic creed of the French symbolists Mallarmé and Rimbaud ("The poet must make himself into a seer") and aims at nothing less than a hallucinatory experience of imagination in which the differences among poem, reader, and subject dissolve into one immediate present.

In Simon Gikandi's view, Caribbean literature and postcolonial literature more generally negotiate an uneasy relationship with the concepts of modernism and modernity—a relationship in which the Caribbean writer, unable to escape a history encoded by Europe, accepts the challenge of rewriting it. Drawing on contemporary deconstructionist theory, Gikandi looks at how such Caribbean writers as George Lamming, Samuel Selvon, Alejo Carpentier, C. L. R. James, Paule Marshall, Merle Hodge, Zee Edgell, and Michelle Cliff have attempted to confront European modernism.

*Natives of My Person* Farrar Straus & Giroux

This marks the publication of the first English-language translation of *Poetic Intention*, Glissant's classic meditation on poetry and art. In this wide-ranging book, Glissant discusses poets, including Stéphane Mallarmé and Saint-John Perse, and visual artists, such as the Surrealist painters Matta and Wilfredo Lam, arguing for the importance of the global position of art. He states that a poem, in its intention, must never deny the "way of the world." Capacious, inventive, and unique, Glissant's *Poetic Intention* creates a new landscape for understanding the relationship between aesthetics and politics.

A reevaluation of Édouard Glissant that centers on the catastrophe of the Middle Passage and creates deep, original theories of trauma and Caribbeanness. While philosophy has undertaken the work of accounting for Europe's traumatic history, the field has not shown the same attention to the catastrophe known as the Middle Passage. It is a history that requires its own ideas that emerge organically from the societies that experienced the Middle Passage and its consequences firsthand. Glissant and the Middle Passage offers a new, important approach to this neglected calamity by examining the thought of Édouard Glissant, particularly his development of Caribbeanness as a critical concept rooted in the experience of the slave trade and its aftermath in colonialism. In dialogue with key theorists of catastrophe and trauma—including Aimé Césaire, Frantz Fanon, George Lamming, Gilles Deleuze, Félix Guattari, Derek Walcott, as well as key figures in Holocaust studies—Glissant and the Middle Passage hones a sharp sense of the specifically Caribbean varieties of loss, developing them into a transformative philosophical idea. Using the Plantation as a critical concept, John E. Drabinski creolizes notions of rhizome and nomad, examining what kinds of aesthetics grow from these roots and offering reconsiderations of what constitutes intellectual work and cultural production. Glissant and the Middle Passage establishes Glissant's proper place as a key theorist of ruin, catastrophe, abyss, and memory. Identifying his insistence on memories and histories tied to place as the crucial

geography at the heart of his work, this book imparts an innovative new response to the specific historical experiences of the Middle Passage.

This innovative book provides an incisive critique of well-established positions in postcolonial theory and a dramatic expansion in the range of interpretative tools available. Peter Hallward gives substantial readings of four significant writers whose work invites, to varying degrees, a singular interpretation of postcolonialism: Édouard Glissant, Charles Johnson, Mohammed Dib, and Severo Sarduy. Using a singular interpretation of postcolonialism is central to the argument this book makes, and to understanding the postcolonial paradigm.

Translation—as a concept—has become central to postcolonial theory in recent decades, offering useful insights and metaphors for the processes explored within the framework of postcolonial studies. But translation itself is still an underexplored activity within this discipline. Intimate Enemies rights this wrong, weaving together reflections on translation by translators, authors, and academics working in regions of Africa, the Caribbean, and nations in the Indian Ocean. Moving beyond the traditional view of translation as betraying, at some level, original texts, the contributors instead highlight the potential for translation to counter the destructive effects of globalization, promote linguistic diversity, and reveal the dynamic political and economic contexts in which books are written, sold, and read.

Treatise on the Whole-world Glissant Translation Project Glissant has written extensively in French about the colonial experience in the Caribbean. Britton (French, Aberdeen U., Scotland) situates Glissant within ongoing debates in postcolonial theory, making connections between his novels and theoretical work and the work of Frantz Fanon, Gayatri Spivak, Homi Bhabha, and Henry Louis Gates, Jr. Focusing on language and subjectivity, discussion moves between analysis of Glissant's theoretical work and detailed readings of his novels.

Major themes central to his writing, such as the reappropriation of history, standard and vernacular language, and the colonial construction of the Other, are addressed. Annotation copyrighted by Book News, Inc., Portland, OR

A masterful writer working in many genres, Ngũgĩ wa Thiong'o entered the East African literary scene in 1962 with the performance of his first major play, *The Black Hermit*, at the National Theatre in Uganda. In 1977 he was imprisoned after his most controversial work, *Ngaahika Ndeenda (I Will Marry When I Want)*, produced in Nairobi, sharply criticized the injustices of Kenyan society and unequivocally championed the causes of ordinary citizens. Following his release, Ngũgĩ decided to write only in his native Gikuyu, communicating with Kenyans in one of the many languages of their daily lives, and today he is known as one of the most outspoken intellectuals working in postcolonial theory and the global postcolonial movement. In this volume, Ngũgĩ wa Thiong'o summarizes and develops a cross-section of the issues he has grappled with in his work, which deploys a strategy of imagery, language, folklore, and character to "decolonize the mind." Ngũgĩ confronts the politics of language in African writing; the problem of linguistic imperialism and literature's ability to resist it; the difficult balance between orality, or "orature," and writing, or "literature"; the tension between national and world literature; and the role of the literary curriculum in both reaffirming and undermining the dominance of the Western canon. Throughout, he engages a range of philosophers and theorists writing on power and postcolonial creativity, including Hegel, Marx, Lévi-Strauss, and Aimé Césaire. Yet his explorations remain grounded in his own experiences with literature (and orature) and reworks the difficult dialectics of theory into richly evocative prose.

Hans Ulrich Obrist met the Martinique-born philosopher, poet, and revolutionary Édouard Glissant in the mid-nineties; the encounter influenced the direction of Obrist's work for years to come. As one of today's most prolific producers of culture, Obrist has left an indelible mark and Glissant, in part, through him. Throughout 2021, during the pandemic and ten years after Glissant's death, Obrist has edited, reworked, and arranged their conversations in their entirety for the first time. *THE ARCHIPELAGO CONVERSATIONS* is the result: a book designed to introduce the most important philosopher of the 21st Century to a broad, public audience - a ready-to-hand tool for building an interdependent Earth.

The collected manifestos of Édouard Glissant and Patrick Chamoiseau: for a postcolonial response to planetary crisis. *Manifestos* brings together for the first time in English the manifestos written by Édouard Glissant and Patrick Chamoiseau between 2000 and 2009. Composed in part in the aftermath of Barack Obama's election in 2008, the texts resonate with the current context of divided identities and criticisms of multiculturalism. The individual texts grapple with concrete historical and political moments in France, the Caribbean, and North America. Across the manifestos, as well as two collectively signed op-eds, the authors engage with socio-political aspects of climate catastrophe, resource extraction, toxicity, and neocolonialism. Throughout the collection, Glissant and Chamoiseau engage with key themes articulated through their poetic vocabulary, including Relation, globalization, globality (*mondialité*), anti-universalism, *mé-tissage*, the *tout-monde* ("whole-world") and the *tout-vivant* ("all-living," including the relationship of humans to each other and "nature"), *créolité* and the creolization of the world, and the liberation from community assignments in response to individualism and neoliberal societies. Translated as the first volume in the *Planetarities* series with Goldsmiths Press, the themes of *Manifestos* resonate with the planetary as they work in response to contemporary forms of (economic) globalization, western capitalism, identity politics, and urban, digital and cosmic ecosystems, as well as the role of the poet-writer. A distinguishing feature of this publication is its interventional aspect, which prioritizes engaged scholarship and practice while demonstrating the relevance of the poetic in response to the urgencies of planetary crisis.

"Freedom as Marronage" deepens our understanding of political freedom not only by situating slavery as freedom's opposite condition, but also by investigating the experiential significance of the equally important liminal and transitional social space "between" slavery and freedom. Roberts examines a specific form of flight from slavery—"marronage"—that was fundamental to the experience of Haitian slavery, but is integral to understanding the Haitian Revolution and has widespread application to European, New World, and black Diasporic societies. He pays close attention to the experience of the process by which people emerge "from" slavery "to" freedom, contending that freedom as marronage presents a useful conceptual device for those interested in understanding both normative ideals of political freedom and the origin of those ideals. Roberts investigates the dual anti-colonial and anti-slavery Haitian Revolution

(1791-1804) and especially the ideas of German-Jewish thinker Hannah Arendt, Irish political theorist Philip Pettit, American fugitive-turned ex-slave Frederick Douglass, and the Martinican philosopher Edouard Glissant in developing a theory of freedom that offers a compelling interpretive lens to understand the quandaries of slavery, freedom, and political language that still confront us today."

In writing *Le Livre de Promethea* Hélène Cixous set for herself the task of bridging the immeasurable distance between love and language. She describes a love between two women in its totality, experienced as both a physical presence and a sense of infinity. The result is a stunning example of *Pécriture* feminine that won kudos when published in France in 1983. Its translation into English by Betsy Wing will extend the influence of a writer already famous for her novels and contributions to feminist theory. In her introduction Betsy Wing notes the contemporary emphasis on "fictions of presence." Cixous, in *The Book of Promethea*, works to "repair the separation between fiction and presence, trying to chronicle a very-present love without destroying it in the writing."

A career-spanning assessment of Glissant's work as a philosophical project. With a career spanning more than fifty years as a writer, scholar, and public intellectual, Édouard Glissant produced an astonishingly wide range of work, including poems, novels, essays, pamphlets, and theater. In *Think Like an Archipelago*, Michael Wiedorn offers a fresh interpretation of Glissant's work as a cohesive and explicitly philosophical project, paying particular attention to the last two decades of his career, which have received much less attention in the English-speaking world despite their remarkable productivity. Focusing his study on the idea of paradox, Wiedorn argues that it is fundamental to Caribbean culture and thought, and at the heart of Glissant's philosophy. The question of difference has long played a central role in the literary and philosophical traditions of the West, however to think differently, Glissant suggests focusing elsewhere: on the post-plantation societies of the Caribbean, and the Americas more broadly. For Glissant, paradoxical lessons drawn from the natural and cultural realities of the Caribbean can point to new ways of thinking and being in the world: in other words, to the creation of what Glissant calls a "new category of literature," and in turn to the attainment of his utopian

political vision. Thinking through such paradoxes, Wiedorn demonstrates, can offer new perspectives on the old questions of totality, alterity, teleology, and the potential of philosophy itself. "The book's use of the central concept of paradox is both original and convincing, and allows Wiedorn to reframe many of the issues surrounding Glissant's thought in a new and illuminating way." — Celia Britton, author of *Édouard Glissant and Postcolonial Theory: Strategies of Language and Resistance*

*A Poetics of Relation: Caribbean Women Writing at the Millennium* fosters a dialogue across islands and languages between established and lesser-known authors, bringing together archipelagic and diasporic voices from the Francophone and Hispanic Antilles. This study underscores the socio-cultural impact of emigration and the perpetual self-redefinition that results from this phenomenon. Without denying the enduring impact of former colonial divisions or minimizing the specificities to each bloc in the region, Ferly shows that a comparative analysis of female narratives is often most pertinent across linguistic zones.

*Cultural Conundrums* investigates the passions of race, gender, and national identity that make culture a continually embattled public sphere in the Anglophone Caribbean today. Academics, journalists, and ordinary citizens have weighed in on the ideological meanings to be found in the minutiae of cultural life, from the use of skin-bleaching agents in the beauty rituals of working-class Jamaican women to the rise of sexually suggestive costumes in Trinidad's Carnival. Natasha Barnes traces the use of cultural arguments in the making of Caribbean modernity, looking at the cultural performances of the Anglophone Caribbean—cricket, carnival, dancehall, calypso, and beauty pageants—and their major literary portrayals. Barnes historicizes the problematic linkage of culture and nation to argue that Caribbean anticolonialism has given expressive culture a critical place in the region's identity politics. Her provocative readings of foundational

thinkers C. L. R. James and Sylvia Winters will engender discussion and debate among the Caribbean intellectual community. This impressively interdisciplinary study will make important contributions to the fields of Afro-diaspora studies, postcolonial studies, literary studies, performance studies, and sociology. "Postcolonial cultural criticism is celebrated for its mastery of generalization and condemned for its inability to historicize. *Cultural Conundrums* is unique in its ability to find a middle ground. It touches on some of the most important and contentious issues in the field. This book will account for why it was in those small islands that what we now call cultural studies was invented." --Simon Gikandi, Princeton University
