Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over,

that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities

The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

The Muses Among Us is an inviting, encouraging book for

writers at any stage of their development. In a series of first-person letters, essays, manifestos, and notes to the reader, Kim Stafford shows what might happen at the creative boundary he calls "what we almost know." On the boundary's far side is our story, our poem, our song. On this side are the resonant hunches, griefs, secrets, and confusions from which our writing will emerge. Guiding us from such glimmerings through to a finished piece are a wealth of experiments, assignments, and tricks of the trade that Stafford has perfected over thirty years of classes, workshops, and other gatherings of writers.

Informing The Muses Among Us are Stafford's own convictions about writing—principles to which he returns again and again. We must, Stafford says, honor the fragments, utterances, and half-discovered truths voiced

around us, for their speakers are the prophets to whom writers are scribes. Such filaments of wisdom, either by themselves or alloyed with others, give rise to our poems, stories, and essays. In addition, as Stafford writes, "all pleasure in writing begins with a sense of abundance—rich knowledge and boundless curiosity." By recommending ways for students to seek beyond the self for material, Stafford demystifies the process of writing and claims for it a Whitmanesque quality of participation and community. *Out of the Dust* (Scholastic Gold) University of Georgia Press *Of Mice and Men* represents an experiment in form - as Steinbeck put it, "a kind of playable novel, written in novel form but so scened and set that it can be played as it stands." A rarity in American letters, it achieved remarkable success as a novel, a Broadway play, and three acclaimed films. *Of Mice and Men* received the New York

Drama Critics' Circle Award for Best Play in 1937-1938. A number of acclaimed actors have interpreted the iconic roles of George and Lennie for stage and screen, including James Earl Jones, John Malkovich and Gary Sinise.

Reviewing her novel, *The Line of the Sun*, the New York Times Book Review hailed Judith Ortiz Cofer as "a writer of authentic gifts, with a genuine and important story to tell." Those gifts are on abundant display in *The Latin Deli*, an evocative collection of poetry, personal essays, and short fiction in which the dominant subject—the lives of Puerto Ricans in a New Jersey barrio—is drawn from the author's own childhood. Following the directive of Emily Dickinson to "tell all the Truth but tell it slant," Cofer approaches her material from a variety of angles. An acute yearning for a distant homeland is the poignant theme of the title poem, which opens the collection. Cofer's lines introduce us "to a woman of no-age" presiding over a small store whose wares—Bustelo coffee, jamon y queso, "green plantains hanging in stalks like votive offerings"—must satisfy, however imperfectly, the needs and hungers of those who have left the islands for the urban Northeast. Similarly affecting is the short story "Nada," in which a mother's grief over a son killed in Vietnam gradually consumes her. Refusing the medals and flag proffered by the government ("Tell the Mr. President of the United States what I say: No, gracias."), as well as the consolations of her neighbors in El Building, the woman begins to give away all her possessions. The narrator, upon hearing the woman say "nada," reflects, "I tell you, that word is like a drain that sucks everything down." As rooted as they are in a particular immigrant experience, Cofer's writings are also rich in universal themes, especially those involving the pains, confusions, and wonders of growing up. While set in the barrio, the essays "American History," "Not for Sale," and

"The Paterson Public Library" teaches him how to walk and deal with concerns that could be those of any sensitive young woman coming of age in America: romantic attachments, relations with parents and peers, the search for knowledge. And in poems such as "The Life of an Echo" and "The Purpose of Nuns," Cofer offers eloquent ruminations on the mystery of desire and the conflict between the flesh and the spirit. Cofer's ambitions as a writer are perhaps stated most explicitly in the essay "The Myth of the Latin Woman: I Just Met a Girl Named Maria." Recalling one of her early poems, she notes how its message is still her mission: to transcend the limitations of language, to connect "through the human-to-human channel of art."
