How can I
celebrate love/

now that I know
what it does? So
begins this
booklength lyric
sequence which
reinhabits and
modernizes the
story of Orpheus,
the mythic master
of the lyre (and

father of lyric
poetry) and
Eurydice, his lover
who died and
whom Orpheus
tried to rescue
from Hades.
Gregory Orr uses
as his touchstone
the assertion that

myths attempt to narrate a whole human experience, while at the same time serving a purpose which resists explanation. Through poems of passionate and obsessive erotic love, Orr has dramatized the anguished intersection of infinite longings and finite lives and, in the process, explores the very sources of poetry. When Eurydice saw him huddled in a thick cloak, she should have known he was alive, the way he shivered beneath its useless folds. But what she saw

was the usual: a stranger confused in a new world. And when she touched him on the shoulder, it was nothing personal, a kindness he misunderstood. To guide someone through the halls of hell is not the same as love. "A reader unfamiliar with Orr's work may be surprised, at first, by the richness of both action and visual detail that his succinct, spare poems convey. Lyricism can erupt in the midst of desolation."—Boston Globe When Gregory Orr's *Burning the Empty*

Nest appear, Publisher's Weekly praised it as an "auspicious debut for a gifted newcomer...he already demonstrates a superior control of his medium." Kirkus Review celebrated it as "an almost unbearably powerful first book of poetry" and enthusiastically reviewed his second book *Gathering the Bones Together*, noting that "Orr's power is the eloquence of understatement." Most recently, his *City of Salt* was a finalist for the Los Angeles Times

Book Award.

Ten years since her first edition, author Debbie Miller returns with *Reading with Meaning, Second Edition: Teaching Comprehension in the Primary Grades* to share her new thinking about reading comprehension strategy instruction, the gradual release of responsibility instructional model, and planning for student engagement and independence. *Reading with Meaning, Second Edition* delves into strategy and how intentional teaching and guided practice can provide

each child a full year of growth during their classroom year. New in this edition are lesson planning documents for each chapter that include guiding questions, learning targets, and summative assessments, as well as new book title recommendations and updated FAQ's from the first edition. Also included are strategic lessons for inferring, determining the importance in each text, and synthesizing information. Teachers can help students make their thinking visible through oral, written, artistic, and dramatic responses and provide examples on how to connect what they read to their own lives. In this book, Miller reflects on her professional experiences and

judgement along with current research in the field. She provides a guide for any teacher hoping to build student relationships and develop lifelong independent learners. [The Crossover](#)

The beloved and award-winning novel now available in a new format with a great new cover! When Wesley Boone writes a poem for his high school English class, some of his classmates clamor to read their poems aloud too. Soon they're having weekly poetry sessions and, one by one, the eighteen students are opening up and taking on the risky challenge of self-revelation. There's Lupe Alvarin, desperate to have a baby so she will feel loved. Raynard

Patterson, hiding a secret behind his silence. Porscha Johnson, needing an outlet for her anger after her mother OD's. Through the poetry they share and narratives in which they reveal their most intimate thoughts about themselves and one another, their words and lives show what lies beneath the skin, behind the eyes, beyond the masquerade.

Moving to America turns H&à's life inside out. For all the 10 years of her life, H&à has only known Saigon: the thrills of its markets, the joy of its traditions, the warmth of her

friends close by, and the beauty of her very own papaya tree. But now the Vietnam War has reached her home. H&à and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. In America, H&à discovers the foreign world of Alabama: the coldness of its strangers, the dullness of its food, the strange shape of its landscape, and the strength of her very own family. This is the moving story of one girl's year of change, dreams, grief, and healing as she journeys from one country to another, one life to the next.

of 2017 A Vulture Best YA Book of 2017 A BuzzFeed Best YA Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator

stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. You'd like to teach poetry with confidence and passion, but let's face it: poetry can be intimidating to both you and your students.

Here is the book that takes the fear factor out of poetry and shows you how to use this powerful genre to spark student engagement and meet language arts requirements. Award-winning poet Paul B. Janeczko is the master for creating anthologies for pre-teen and adolescent readers, and here he's chosen 20 contemporary and classic selections with step-by-

step, detailed lessons for investigating each poem from the inside out. Kids learn to become active readers of poetry, using graphic organizer worksheets to help them jump over their fear and dive into personal, smart, analytical responses. There's no better genre than poetry for helping students gain perspective on their own identities and their own

"In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of "Where I'm From" poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed

by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. I am proud that they were my
