This is a book that takes on the “ hard questions ” about the role of poets in society together with the challenges of reading “ difficult ” poetry. Using the relaxed format of the personal interview, Butling and Rudy open doors to some of the most challenging and important poetry of the 1990s. Robert Kroetsch talks about his dread of systems and his subversive use of sub-literary forms. Erin Mour é and Daphne Marlatt discuss the feminist trajectories in their work—how to jump circuits and activate alternative networks. Dionne Brand links her poetics to Marxist politics and Pan-African liberation movements.

Annharte explains her use of humour to de-program Native people. Jeff Derksen wants to disarticulate and rearticulate linguistic and social systems, while Fred Wah emphasizes the role of poetry in changing how we see the world.

Teaching Writing in the Content Areas Little, Brown Books for Young Readers

How do you draw your smelly dog? Your playful daddy? Your yummy mommy? See how one girl does it in this simple, clever picture book that's comprised of family portraits made out of objects. For example, her baby brother is so noisy—he's as loud as a whistle, a horn, and even a fire truck!—that she creates a picture of him with whistles for eyes, a horn mouth, and

holding a fire truck. After the girl has described everyone in her family (including herself, in great detail), she asks, "What does your special family look like?" encouraging readers to create their own portraits. With a list of objects at the end of the book to use as a guide, this is the ideal choice for budding artists everywhere. Here's a wonderful exploration of simile and metaphor for young readers. And don't miss the companion book *My Best Friend is as Sharp as a Pencil!* Descriptive Writing, Grades 1-2 Poetic Fun The Cambridge Companion to American Poets brings together thirty-one essays on some fifty-four American poets, spanning nearly 400 years, from Anne Bradstreet to contemporary performance poetry. This book also examines such movements in American poetry as modernism, the Harlem (or New Negro) Renaissance, 'confessional' poetry, the Black Mountain School, the New York School, the Beats, and L=A=N=G=U=A=G=E poetry. Its reputable host of contributors approach American poetry from perspectives as diverse as the poetry itself. The result is a Companion concise enough to be read with pleasure yet expansive enough to do justice to the many traditions American poets have modified, inaugurated, and made their own.

Most texts on creative writing emphasize either sources of inspiration or strategies for editing. The process of getting from initial inspiration to final draft isn't often dealt with in any practical way. *Writing and Workshopping Poetry* focuses on all three phases of the process of composition: finding the material; building and developing the poem from rough draft to complete work; editing and refining. The text offers everything students and instructors need: extensive notes written in an accessible, conversational style; seventy-five writing exercises; and about a hundred poems chosen from a wide range of sources, from sixteenth-century sonnets to experimental constrained forms, with an emphasis on exciting poems by contemporary American and Canadian poets. Each chapter concludes with a brief, point-form summary of major learning objectives as well as a review list of useful terms.

*Conversations with Dana Gioia* is the first collection of interviews with the internationally known poet and public intellectual, covering every stage of his busy, polymathic career. Dana Gioia (b. 1950) has made many contributions to contemporary American literature and culture, including but not limited to crafting a personal poetic style suited to the age; leading the revival of rhyme, meter, and narrative through New Formalism; walloping the “intellectual ghetto” of American poetry through his epochal article “Can Poetry Matter?”; helping American poetry move forward by organizing influential conferences; providing public service and initiating nationwide arts projects such as Poetry Out Loud through his leadership of the National Endowment for the Arts; and editing twenty best-selling literary anthologies widely used in American classrooms. Taken together, the twenty-two collected interviews increase our understanding of Gioia's poetry and poetics, offer aesthetic pleasure in themselves, and provide a personal encounter with a writer who has made poetry matter. The book presents the actual voice of Dana Gioia, who speaks of his personal and creative life and articulates his

unique vision of American culture and poetry.

The *Poetry Handbook* is a lucid and entertaining guide to the poet's craft, and an invaluable introduction to practical criticism for students. Chapters on each element of poetry, from metre to gender, offer a wide-ranging general account, and end by looking at two or three poems from a small group (including works by Donne, Elizabeth Bishop, Geoffrey Hill, and Nobel Laureate Derek Walcott), to build up sustained analytical readings. Thorough and compact, with notes and quotations supplemented by detailed reference to the Norton Anthology of Poetry and a companion website with texts, links, and further discussion, The *Poetry Handbook* is indispensable for all school and undergraduate students of English. A final chapter addresses examinations of all kinds, and sample essays by undergraduates are posted on the website. Critical and scholarly terms are italicised and clearly explained, both in the text and in a complete glossary; the volume also includes suggestions for further reading. The first edition, widely praised by teachers and students, showed how the pleasures of poetry are heightened by rigorous understanding and made that understanding readily available. This second edition — revised, expanded, updated, and supported by a new companion website - confirm The *Poetry Handbook* as the best guide to poetry available in English.

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing

Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
