Funnybooks is the story of the most popular American comic books of the 1940s and 1950s, those published under the Dell label. For a time, "Dell Comics Are Good Comics" was more than a slogan—it was a simple statement of fact. Many of the stories written and drawn by people like Carl Barks (Donald Duck, Uncle Scrooge), John Stanley (Little Lulu), and Walt Kelly (Pogo) repay reading and rereading by educated adults even today, decades after they were published as disposable entertainment for children. Such triumphs were improbable, to say the least, because midcentury comics were so widely dismissed as trash by angry parents, indignant librarians, and even many of the people who published them. It was all but miraculous that a few great cartoonists were able to look past that nearly universal scorn and grasp the artistic potential of their medium. With clarity and enthusiasm, Barrier explains what made the best stories in the Dell comic books so special. He deftly turns a complex and detailed history into an expressive narrative sure to appeal to an audience beyond scholars and historians.

Bad clowns—those malicious misfits of the midway who terrorize, haunt, and threaten us—have long been a cultural icon. This book describes the history of bad clowns, why clowns go bad, and why many people fear them. Going beyond familiar clowns such as the Joker, Krusty, John Wayne Gacy, and Stephen King's Pennywise, it also features bizarre, lesser-known stories of weird clown antics including Bozo obscenity, Ronald McDonald haters, killer clowns, phantom-clown abductors, evil-clown panics, sex clowns, carnival clowns, troll clowns, and much more. Bad Clowns blends humor, investigation, and scholarship to reveal what is behind the clown's dark smile.

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."
