Hold'em Wisdom for all Players iUniverse

Talkin' About Poker is the first book written to help parents educate themselves about poker, communicate with their young poker players, and determine if their children are playing in a healthy way. Each chapter includes straight talk and tips from Chris Ackerman, a twenty-four-year-old professional poker player. Talkin' About Poker also offers answers to the following questions: How do you play and bet? Is it legal for my child to play poker? Can my child become addicted to poker playing? Can poker really be played as a recreational sport? How can I tell if the game is becoming a problem for my child? What kind of professional help is available for young gamblers?

According to Doyle Cardoza

The first instructional book written by a renowned poker champion for Internet players (as well as those hoping to make the transition from computer games to live play) Online King gives readers invaluable instruction that can be put into practice immediately on his popular website, thefishtank.com. No matter what skill level you have now, Online King will raise your game.

The Biggest Bluff Macmillan

Fascinating true-life adventure of an American treasure, a man who bluffed death, survived the mean streets of Fort Worth and mob-run Las Vegas, and bet millions of dollars on everything from poker to golf, to become a two-time world champion poker player. The story of Doyle Brunson, an American treasure and the greatest poker player of all time, is one for the ages. It's a story of guts and glory, of good luck and bad, of triumph and unspeakable tragedy, of courage and grace. He has survived whippings, gun fights, stabbings, mobsters (the real-life ones portrayed in the movie Casino), murderers, and a death sentence when, riddled with incurable cancer, he was given months to live by doctors who told him his hand was played out. Apparently, fate had never played poker with Brunson—he lived. Of a group of 32 men he played poker with in the tough alleys of Texas, just he and one other survived the treacherous perils of that life. A master of the bluff, his most outrageous bluff came after being pistol-whipped and told he's going to die with a gunman pointing a pistol at his forehead. Again, he lived. He's gambled for millions of dollars—and with his life against the real-life mobsters and killers made famous in the movie Casino—and was the biggest sports bettor in the world with a reputation of betting enormous sums of money on just about anything. Doyle has not only made more money at golf than anyone else until Tiger Woods came along, he once bet one

million dollars on a single hole—that, when he was virtually wheelchair-bound and could barely stand. He's been hard-up flat broke more times than he's got fingers and has won millions of dollars just as many times. Brunson has seen it all: from the athletic dreams and a leg shattered by a freak injury which waylaid his path to the NBA (he was drafted by the Lakers), to the devastating death of his first-born daughter, to outrageous exploits like trying to discover Noah's Ark and raise the Titanic. Doyle's rollercoaster of a life defines the saying: Truth is stranger than fiction. Twice a winner of the prestigious World Series of Poker in Las Vegas, he's won millions and lost millions—sometimes in seconds—but decidedly more of the former than the latter. Brunson can still be found playing in the highest stakes poker games in the world, often with as much as one million dollars in front of him. To every one of the 250 million people worldwide who play poker each year, Doyle Brunson, is the legendary “Babe Ruth of Poker”—the greatest gambler and poker player who has ever lived.

**How I Made Over \$1,000,000 Playing Poker** Cardoza

Positive Poker Citadel Press

"Scrolling the pages of a Hughes narrative is like lighting a lantern into the darkest recess of poker's subculture. [Hughes] brings the legends of the past and present to life and often provides the very best portrait of these unique, real-life characters of anyone on record."

-Nolan Dalla, media director, World Series of Poker, best-selling author and columnist for Card Player "Johnny Hughes's poker stories are a national treasure . hilarious stories and colorful characters . timeless classics . the stuff of history . one of my all-time favorite poker writers."

-Iggy, a.k.a. Ignatius J. Reilly, the Blogfather of Poker, GuinnessandPoker.com

"Told with authenticity and the knowledge that only a true road gambler could possess . a book that you will love . a highly enjoyable read." -Anthony Kelly, editor-in-chief, Player Europe magazine. Dublin. "Cryptic, dark. Irrefutably unique. Elliptical euphemism and metaphor are (Hughes's) tools. Gambling folklore and parables abound. All told with a twinkle in the eye and one finger on the trigger ... Johnny writes evasively, challenging us to refute, compelling us to believe." -James Dodd, a.k.a. Tetuso, Bet-the-Pot.com. London.

**The Deep Learning Revolution** High Powered Publishing

How deep learning—from Google Translate to driverless cars to personal cognitive assistants—is changing our lives and transforming every sector of the economy. The deep learning revolution has brought us driverless cars, the greatly improved Google Translate, fluent conversations with Siri and Alexa, and enormous profits from automated trading on the New York Stock Exchange. Deep learning networks can play poker better than professional poker players and defeat a world champion at Go. In this book, Terry Sejnowski explains how deep learning went from being an arcane academic field to a disruptive technology in the information economy. Sejnowski played an important role in the founding of deep learning, as one of a small group of researchers in the 1980s who challenged the prevailing logic-and-symbol based version of AI. The new version of AI Sejnowski and others developed, which became deep learning, is fueled instead by data. Deep networks learn from data in the same way that babies experience the world, starting with fresh eyes and gradually acquiring the skills needed to navigate novel environments. Learning algorithms extract

information from raw data; information can be used to create knowledge; knowledge underlies understanding; understanding leads to wisdom. Someday a driverless car will know the road better than you do and drive with more skill; a deep learning network will diagnose your illness; a personal cognitive assistant will augment your puny human brain. It took nature many millions of years to evolve human intelligence; AI is on a trajectory measured in decades. Sejnowski prepares us for a deep learning future.

There are two distinct strands in the literature on gambling: one that focuses on how to play and win the various games of chance and one that focuses on gambling compulsion and addiction. Gambling and Gender forges a new direction, studying gambling as more communication than compulsion, more recreation than deviance, more sociology than psychology. Within that framework it seeks to explore several aspects of gender: How do the gambling behaviors of men and women differ? How have women adapted to and/or changed the historically male dominance of the gambling arena? What gambling activities have women claimed as their own and used to develop uniquely female relationships? How have recent trends in technology and mass media changed the ways in which men and women claim - or reject - their gender identities? The authors use a variety of research strategies, including content analysis, survey research, interviews, and participative observation, to shed new light on this fascinating subject and to suggest ways to explore it further.

Online Poker Lyle Stuart

Poker Samadhi Open Court

Why are the best poker players actually the best? Every serious poker player wants to be successful and many of them have the right technical skills. However, the truth is that there are key mental factors that separate the big winners from everyone else. Patricia Cardner is a psychology professor, licensed professional counselor and dedicated poker player. She interviewed a select group of professional poker players who share two key characteristics: ALL of them have been successful over many years and ALL of them have lifetime winnings of more than \$1,000,000. Patricia analyzed the results to determine exactly what psychological skills, techniques, and strategies they use. This book is the result of her studies. Positive Poker outlines the mental skills that you need to

develop if you want raise your game. Positive Poker will help you to: Optimize your brain for efficient learning Increase motivation and stay positive Use psychological skills to increase your win rate Increase self-control and reduce tilt Patricia is aided in her investigations by the highly successful poker pro Jonathan Little, author of the critically acclaimed series, Secrets of Professional Tournament Poker.

This is the must-have book for serious poker players.

**Basics of Winning Poker** Cardoza

A New York Times bestseller • A New York Times Notable Book “The tale of how Konnikova followed a story about poker players and wound up becoming a story herself will have you riveted, first as you learn about her big winnings, and then as she conveys the lessons she learned both about human nature and herself.” —The Washington Post It's true that Maria Konnikova had never actually played poker before and didn't even know the rules when she approached Erik Seidel, Poker Hall of Fame inductee and winner of tens of millions of dollars in earnings, and convinced him to be her mentor. But she knew her man: a famously thoughtful and broad-minded player, he was intrigued by her pitch that she wasn't interested in making money so much as learning about life. She had faced a stretch of personal bad luck, and her reflections on the role of chance had led her to a giant of game theory, who pointed her to poker as the ultimate master class in learning to distinguish between what can be controlled and what can't. And she certainly brought something to the table, including a Ph.D. in psychology and an acclaimed and growing body of work on human behavior and how to hack it. So Seidel was in, and soon she was down the rabbit hole with him, into the wild, fiercely competitive, overwhelmingly masculine world of high-stakes Texas Hold'em, their initial end point the following year's World Series of Poker. But then something extraordinary happened. Under Seidel's guidance, Konnikova did have many epiphanies about life that derived from her new pursuit, including how to better read, not just her opponents but far more importantly herself; how to identify what tilted her into an emotional state that got in the way of good decisions; and how to get to a place where she could accept luck for what it was, and what it wasn't. But she also began to win. And win. In a little over a year, she began making earnest money from tournaments, ultimately totaling hundreds of thousands of dollars. She won a major title, got a sponsor, and got used to being on television, and to headlines like "How one writer's book deal turned her into a professional poker player." She even learned to like Las Vegas. But in the end, Maria Konnikova is a writer and student of human behavior, and ultimately the point was to render her incredible journey into a container for its invaluable lessons. The biggest bluff of all, she learned, is that skill is enough. Bad cards will come our way, but keeping our focus on how we play them and not on the outcome will keep us moving through many a dark patch, until the luck once again breaks our way.

*Talkin' about Poker* Cardoza Publishing

An account of the author's cross-country poker hustle activities is paired with a narrative history of the tradition of the poker con and describes how he sought out the country's best games and worst players in order to build a large enough bankroll to compete in a Commerce Casino game. Reprint. 15,000 first printing.

*Poker and Philosophy* Lulu Press, Inc

Does God play cards with the universe? Do women have better poker faces than men? What's the most existential poker movie ever made? Is life more meaningful when you go all-in? Is online poker really still poker? Poker and Philosophy ponders these questions and more, pitting young lions against old masters as the brashness of Phil Hellmuth meets the arrogance of Socrates, the recklessness of Doyle Brunson challenges the desperation of Dostoyevsky, and the coolness of Chris MoneyMaker takes on the American tradition of capitalist ingenuity. This witty collection of essays demonstrates what serious card sharks have long known: winning big takes more than a good hand and a straight face. Stacking the metaphorical deck with a serious grounding in philosophy is the key to raking it in, because as Machiavelli proved long ago, it's a lot better to be feared than loved, and lying is not the same as cheating.
