POLAR has developed a safety concept to check on a regular basis all safety functions of its high-speed cutters out in the field, to maintain the well-known high safety standard of all these machines.

POLAR's automatic jogger RA is of the same design as standard modell R, but includes an air-removing roller with variable air-removing pressure. The air can be pressed from the paper reams in one or two cycles. With the table in tilted position, the removal is possible also in between times.
