E. Howard Hunt, who sued this author for writing about his involvement in the JFK assassination or "The Big Event" confessed to being part of the crew and named Frank Fiorini Sturgis as one of principals; Coup D'Etat in America was the book that inspired Congressman Henry Gonzalez to introduce a bill in Congress that led to the formation of House Select Committee on Assassinations. This is a longer updated version. It is based on the theory that the three tramps who were picked up about an hour after the Kennedy Assassination (not to be confused with the three real bums who were picked up right after the big event - Oliver Buck Revell of FBI Dallas FO floated this story to discredit the tramp theory) were E. Howard Hunt, CIA official who was instrumental in the overthrow of Arbenz of Guatemala and was deeply involved in the Bay of Pigs fiasco, Frank Fiorini Sturgis, a leader of Operation 40 which involved assassinating all the Communists and their families in Cuba after Castro was deposed, and David Lemar Christ, who was locked up and tortured by Castro for bugging the ChiCom wire service and released in April 1963 in a prisoner exchange. It also documents the part that James Angleton played in Oswald's defection to the Soviet Union and Oswald's role in sabotaging an upcoming USSR USA Summit conference. Coup is based on years and years of research at NARA, Federal Court houses, personal interviews and the information I bought from Gerry Patrick Hemming, the man who brought Oswald into the mix and had him believing that he was running a counter-intelligence operation against the Cubans by trying to visit Cuba, by forming the Fair Play for Cuba Committee and other of Oswald's shenanigans. Hemming offered Oswald twice the cost of his rifle and told him to bring it to the TSBD on November 22, 1963. Oswald didn't have a clue that the big event was going down. Hemming tried to set me up for a fall to work off a beef. He said he knew of a lab where the Yippies could construct an atomic IED. Just taking a step in that direction is conspiracy. I told him my name was no Oswald. Coup also documents Jack Ruby's part in the conspiracy as the CIA and the Mafia had worked together to assassinate Fidel Castro. But Jack's flunkie Tippet messed up because Oswald had realized he was a patsy in the big event by this time and took Tippet out before Tippet could take him out as Ruby had ordered. Oswald had heard Hemming talk about scenarios where patsy's get blown away and suddenly realize that his old Marine buddy had set him up. This book in constantly being updated.

Tens of thousands of mechanical engineers are engaged in the design, building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer ' s personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as: • physical principles of various material handling systems; • considerations in selecting technically efficient and environmentally friendly equipment; • best practices in upgrading and optimizing existing bulk material handling facilities; • strategies to select proper equipment in the early phases of a new project. Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.
