In Mordin On

Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish

racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.

As the authors note, Wenders' works have been profoundly influenced by American films, especially the 'road movie' genre. His own work often features characters who are always on the move, in an attempt to capture a glimpse of their identity and place in the world. They also represent a generation of postwar Germans seeking to redeem themselves and the history of their country by turning
