The Branding of Polaroid

This book is a facsimile of an album of Eggleston's Polaroids assembled by the photographer himself, and containing the only photos he made in this medium. Consisting of 56 images taken with the Polaroid SX-70 (the now cult camera produced between 1972 and 1981) and handmounted in a black leather album also produced by the company, Polaroid SX-70 is the fi rst publication of Eggleston's Polaroids.

The gloriously mundane subjects of these photos--a Mississippi street sign, a telephone book, stacked crates of empty soda bottles--are familiar Eggleston territory, but fascinatingly all of these Polaroids were taken outdoors. They are rare records of Eggleston's strolls or drives in and around Mississippi, complement the majority of his work made with color negative fi lm or color slides, and show his ironic fl air for photo-sequencing in book form. Something new always slowly changes right in front of your eyes--it just happens. -- William Eggleston
