Egypt Palgrave Macmillan

This textbook provides a comprehensive introduction to the study of politics, covering areas as diverse as comparative government and political philosophy, international relations and political economy, from an international perspective.

**Global Politics** Red Globe Press

In this authoritative Advanced Introduction, Ken Conca expertly examines the fundamentals of water politics, covering poverty, health and livelihoods alongside key areas such as water law, the environment, international politics and the growing role of climate change in water governance

**Routledge Handbook of Political Corruption**  
OUP Oxford

Concepts have a particular importance for students of politics and international relations. Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue, fight and even go to war, each claiming to be 'defending freedom', 'upholding democracy' or 'supporting justice'. The problem is that words such as 'freedom', 'democracy' and 'justice' have different meanings to different people, so that the concepts themselves come to seem problematic. This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis. Each term is defined clearly and fully, and its significance for political argument and practice is explored. The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts. Renowned for its lively, engaging style and user-friendly approach, the second edition is an invaluable companion to the study of politics and international relations.

**Key Concepts in Politics and International Relations** Cambridge University Press

"Andrew Heywood investigates the ideas that have dominated political thinking across the globe, and examines the different ways in which they have been interpreted and reinterpreted. Written in an accessible and engaging style, it covers the key ideological traditions, offering an exposition of their history and development, their core themes and internal divisions and their impact on contemporary political behaviour, movements, parties and governments."--Provided by publisher.

**The Oxford Handbook of Political Theory** Red Globe Press

The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies.

**Syndromes of Corruption** Bloomsbury Publishing

This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of developments such as globalization and the "war on terror."

**Game Theory for Political Scientists** Cambridge University Press

In *Liberalism and Pluralism* the author explores the challenges conflicting values, interests and identities pose to liberal democracy. Richard Bellamy illustrates his criticism and proposals by reference to such topical issues as the citizens charter, constitutional reform, the Rushdie affair and the development of the European Union.

**Foundations of Comparative Politics** Princeton University Press

This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of

developments such as globalization and the "war on terror".

**Global Environmental Politics** Penguin

Objective, critical, optimistic, and with a global focus, this textbook combines international relations theory, history, up-to-date research, and current affairs to give the student a comprehensive, unbiased understanding of international politics. It integrates theory and traditional approaches with globalization and research on newer topics such as terrorism, the rise of new economic superpowers, and the impact of global communications and social networking to offer the ideal breadth and depth of coverage for a one-semester undergraduate course. Student learning is supported and enhanced by box features and "Close Up" sections with context and further information, "Critical Case Studies" that highlight controversial and complex current affairs topics and show how the world works in practice, and questions to stimulate discussion, review key concepts, and encourage further study. It brilliantly demonstrates the significance and interconnectiveness of globalization and new security challenges in the 21st century and illuminates the role of leadership in transnational crises.

**The Politics of Evidence (Open Access)** Routledge

This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations. The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field, combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones. Ideologies, however, are always with us. The Handbook is divided into three sections: The first is divided into three sections: The first reflects some of the latest thinking about the development of ideology on an historical dimension, from the standpoints of conceptual history, Marx studies, social science theory and history, and leading schools of continental philosophy. The second includes some of the most recent interpretations and theories of ideology, all of which are sympathetic in their own ways to its exploration and close investigation, even when judiciously critical of its social impact. This section contains many of the more salient contemporary accounts of ideology. The third focuses on the leading ideological families and traditions, as well as on some of their cultural and geographical manifestations, incorporating both historical and contemporary perspectives. Each chapter is written by an expert in their field, bringing the latest approaches and understandings to their task. The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions.

**Political Ideologies, Fourth Edition** Cambridge University Press

**Political Consumerism** captures the creative ways in which consumers and citizens turn to the market as their arena for politics. This book theorizes, describes, analyzes, compares, and evaluates how political consumers target corporations to solve globalized problems. It demonstrates the reconfiguration of civic engagement, political participation, and citizenship. Unlike other studies, this book also evaluates if and how consumer actions are or can become effective mechanisms of global change.

**Political Ideologies** Scribner

This substantially revised third edition of the leading text on political ideologies takes full account of the impact of the post-Cold War world order, the challenge of postmodernism, the advance of globalization, and the advent of global terrorism, and includes additional coverage of the prospects for ideologies in the 21st century.

**Politics** Edward Elgar Publishing

From Kosovo to Kabul, the last decade witnessed growing interest in 'electoral engineering?'. Reformers have sought to achieve either greater government accountability through majoritarian arrangements or wider parliamentary diversity through proportional formula. Underlying the normative debates are important claims about the impact and consequences of electoral reform for political representation and voting behavior. The study compares and evaluates two broad schools of thought, each offering contracting expectations. One popular approach claims that formal rules define electoral incentives facing parties, politicians and citizens. By changing these rules, rational choice institutionalism claims that we have the capacity to shape political behavior. Alternative cultural modernization theories differ in their emphasis on the primary motors driving human behavior, their expectations about the pace of change, and also their assumptions about the ability of formal institutional rules to alter, rather than adapt to, deeply embedded and habitual social norms and patterns of human behavior.

**Electoral Engineering** Palgrave Macmillan Limited

Oxford Handbooks of Political Science are the essential guide to the state of political science today. With engaging contributions from 51 major international scholars, the Oxford Handbook of Political Theory provides the key point of reference for anyone

working in political theory and beyond.

**Political Ideas and Concepts** Routledge

This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The latest edition of *Political Ideologies*: introduces and considers the future of all the most widely studied ideologies: liberalism; conservatism; socialism; democracy; nationalism; fascism; ecologism and feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the twenty-first century has been fully revised and up-dated and provides an annotated guide for further reading.

**Essentials of Political Ideas** Pluto Press (UK)

The fifth edition of this seminal textbook by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - *New Politics in Action* features reflect the latest political developments – including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book.

**Political Consumerism** Red Globe Press

Stimulating, succinct, and accessible, this highly successful text offers a truly comprehensive introduction to the study of politics, written from an international perspective. This third edition of *Politics* has a new chapter on the mass media and political communication and contains substantial new material on developments such as the "War on Terror," identity politics and multiculturalism, and state transformation. It also takes into account throughout of the increasing importance of the global dimension of politics, and features new boxed material on major thinkers and key concepts.

**Liberalism and Pluralism** Palgrave MacMillan

A brilliant condemnation of political hobbyism—treating politics like entertainment—and a call to arms for well-meaning, well-informed citizens who consume political news, but do not take political action. Who is to blame for our broken politics? The uncomfortable answer to this question starts with ordinary citizens with good intentions. We vote (sometimes) and occasionally sign a petition or attend a rally. But we mainly "engage" by consuming politics as if it's a sport or a hobby. We soak in daily political gossip and eat up statistics about who's up and who's down. We tweet and post and share. We crave outrage. The hours we spend on politics are used mainly as pastime. Instead, we should be spending the same number of hours building political organizations, implementing a long-term vision for our city or town, and getting to know our neighbors, whose votes will be needed for solving hard problems. We could be accumulating power so that when there are opportunities to make a difference—to lobby, to advocate, to mobilize—we will be ready. But most of us who are spending time on politics today are focused inward, choosing roles and activities designed for our short-term pleasure. We are repelled by the slow-and-steady activities that characterize service to the common good. In *Politics Is for Power*, pioneering and brilliant data analyst Eitan Hersh shows us a way toward more effective political participation. Aided by political theory, history, cutting-edge social science, as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously, this book shows us how to channel our energy away from political hobbyism and toward empowering our values. **Shakespeare and Early Modern Political Thought** Palgrave Macmillan Game theory is the mathematical analysis of strategic interaction. In the fifty years since the appearance of von Neumann and Morgenstern's classic *Theory of Games and Economic Behavior* (Princeton, 1944), game theory

---

has been widely applied to problems in economics. Until recently, however, its usefulness in political science has been underappreciated, in part because of the technical difficulty of the methods developed by economists. James Morrow's book is the first to provide a standard text adapting contemporary game theory to political analysis. It uses a minimum of mathematics to teach the essentials of game theory and contains problems and their solutions suitable for advanced undergraduate and graduate students in all branches of political science. Morrow begins with classical utility and game theory and ends with current research on repeated games and games of incomplete information. The book focuses on noncooperative game theory and its application to international relations, political economy, and American and comparative politics. Special attention is given to models of four topics: bargaining, legislative voting rules, voting in mass elections, and deterrence. An appendix reviews relevant mathematical techniques. Brief bibliographic essays at the end of each chapter suggest further readings, graded according to difficulty. This rigorous but accessible introduction to game theory will be of use not only to political scientists but also to psychologists, sociologists, and others in the social sciences.

*Political Ideologies, Fourth Edition* Palgrave Macmillan

Essentials of UK Politics and Government is the go-to textbook for all A-level Politics students studying the Edexcel specification. Building on Andrew Heywood's signature accessible style, this new fifth edition has been thoroughly updated by Kathy Schindler and Adam Tomes who draw on their experience to provide an innovative guide to UK Politics. This book covers all the core topics from Democracy and Participation, Elections and Referendums and Voting Behaviour, to the Constitution, the Prime Minister and Parliament. Packed with contemporary examples, this edition includes material on the 2017 and 2019 General Elections, Covid-19 and the latest Brexit developments. Curated pedagogical features such as Key Topic Debates, Case Studies and Synoptic Links will encourage students to strengthen their critical thinking skills and hone their ability to debate with confidence. Accompanying the book is a content-rich companion website featuring bonus case studies, further sample student answers with annotations, tips for planning and organising revision and much more.
