Porsche 914 Motorbooks In Porsche 911: 50 Years, bestselling author Randy Leffingwell celebrates a half-century of one of the world's premiere sports cars, focusing on the major themes that have defined Porsche's rear-engined wonder. Randy tells the whole story--design and development, racing and competition, engineering and technology, style and culture. All the iconic 911 models are included: the original 901

prototype that set the standard; the legendary RS models that made the little Porsche a dominant force on the world's racetracks; the infamous Turbo, the car that kept the performance flame alight during the dark, dismal decade of the 1970s; the fabled 959, the model that redefined the term "sports car"; the 993, last of the original air-cooled models; and the 996, 997, and 991, the liquid-cooled cars that brought the 911 into a new millennium. Beyond telling the story of the cars, Porsche 911: 50 years also

spotlights the people behind them: Ferdinand "Butzi" Porsche, the son of legendary Porsche founder Ferdinand "Ferry" Porsche, who co-designed the instantly recognizable 911 shape; Peter W. Schutz, the Porsche CEO who saved the 911 from extinction; and Dr. Helmuth Bott, the engineering genius behind many of the groundbreaking technologies that have defined the 911, including fuel injection, turbocharging, and all-wheel-drive. Leffingwell also tells the story of the 911

community--the clubs and culture that surround the car. Together, all of these facets make Porsche 911: 50 Years the most essential book in any Porsche owner or fan's library. Porsche 911 Identification Guide Veloce Publishing The introduction of the Porsche 901 in 1963 marked a milestone in automotive history. Although the name later had to be changed because Peugeot had patented having a 0 in the middle of car model numbers, the 911 didn't let anything stand in the way of its becoming an iconic sports car. This success story spans all the way from the 901 and the Carrera RS 2.7 (which with its characteristic rear spoiler--the so-called "ducktail"--was the fastest production car of its time)

right up to the current generation of the 991. For the 50th birthday of the populous 911 family, the famous automotive photographer Rene Staud, whose The Mercedes-Benz 300 SL Book has also been published by teNeues, showcases the most important models--all in his typically radiant and distinctive style.
