Jim Kellogg, the owner of 356RESTORE, bought his first 356 in 1978. It was a \$750 1957 1500GS Carrera right hand drive sunroof coupe. It did not have the Carrera engine and was in poor shape. He made some fiberglass repairs, installed a fuzzy carpet and got it running. Knowing he did not have the skills for a proper restoration, he traded it for a 1963 sunroof coupe that also needed restoration. The owner of the 1963 had a restoration shop and would restore the 356 letting Jim assist in the process. For a year Jim visited the shop weekly and learned some restoration techniques. The 1963 was completed and is still Jim's daily driver. Through his contacts at the restoration shop, Jim learned of a 1962 Roadster for sale. With his newly gained, but limited knowledge, Jim bought the Roadster for a future project. This was delayed until Jim was transferred to the Denver area and had some time available. He found a body

man who said he could do the restoration, but things turned ugly when the body man defaulted on a loan to buy equipment. Jim made an appointment to discuss the situation, but the body man never showed. Since he had been given a key to the shop, Jim entered and borrowed the shop MIG welder and plasma cutter. He left a note saying he had borrowed these tools. There was no response and then came word that the shop was being shop down. With the help of friends, the Roadster chassis and parts were rescued. The body man ended up in jail. So now Jim had the Roadster back and the tools to do the metal work, but no welding skills. Jim enlisted the help of a local welder to show him how to use the tools. With this assistance on evenings and weekends Jim taught himself how to weld and he finished the restoration of the 1962 twin grille roadster S/N 89621. It made its debut at the 1991 Registry Holiday in Steamboat Springs, Colorado. It is now the daily driver of his wife, Barbara. The family phrase, "She sure looks good in that car." was overheard from a participant at the 1992 West Coast Holiday in Squaw Valley California. In 1992, Jim took an early retirement from his managerial position in the computer industry. Driving his sunroof coupe to the vintage races at Steamboat Springs, he pondered his future. His career decision was to do what he had enjoyed the most -- restore the Porsche 356. He established 356RESTORE expecting to work on one or two 356s a year. In the first 12 years over eighty 356s have been repaired or restored. In 1998, Jim was joined in the business by his son, B.J. Book jacket.

The 356 Porsche Haynes Manuals N. America, Incorporated Since its introduction in 1997, the Porsche Boxster has earned a reputation as one of the world's greatest sports cars, as well as a huge, loyal following of devoted drivers. Porsche 911 Owners Workshop Manual Bentley Pub

There is a reason why it is known as "racing car of the century": the Porsche 917. From 1969 to 1975 this unique racing car seemed to have a standing order to take first place in the world championships and in Le Mans. Ferdinand Piëch's preface is the prelude to a book that, unlike any other book written about the Porsche 917, is based on factory documents only. As a you engineer, author Walter Näher was involved in the development of the Porsche 917 and serviced it in many races. His expert knowledge of this car enabled him to write the ultimate book about the Porsche 917 - a documentary that gives detailed descriptions of developments and test drives, and comprises the race reports as well. Many previously unpublished photos from the Porsche archive enhance this comprehensive and detailed book which, in the second part, minutely presents the story of each of the 64 Porsches 917 that where built. When in 1973 a Porsche 917 wins the Can-Am series for the second time, the Americans change the regulations - which leads to the disqualification of the Porsche 917 and thus to the end of a one time winning streak. This book is a must-have for Porsche 917 enthusiasts.

Serious automotive enthusiasts consider Porsche's Carrera 2.7 RS to be the archetypical 911...and deservedly so. The cars are light, responsive, purposeful and the type 911/83 engine delivers scintillating performance. Over the last 40 years the 2.7 RS has been covered in dozens of books and articles. Yet its successor - a car with the identical engine and similar DNA - remains either unknown or misunderstood even by long-time Porsche enthusiasts. That car is the Carrera 2.7 MFI. This book tells the complete story of these remarkable, unheralded sports cars.The Carrera 2.7 book has been meticulously researched using the Porsche factory archives, private collections, period documentation and intensive study. The book attempts to cover everything an owner, restorer, historian or

enthusiast would want to know about this intriguing 911 variant.

Content includes comprehensive discussion of original options, photos of key details, insights into factory production, competition history and a considerable amount of material never before published. Although primarily focused on the top-of-the-line mechanically-fuel injected Carrera 2.7, this book will also prove valuable to enthusiasts of any of the Porsche 911 and 930 Turbo models produced during the mid-1970s. A limited edition of 2,500 numbered hardcover copies will be produced in English with five-color printing on high-quality 150 gram paper and enclosed within a protective slipcase.
