As this Postsingular Rudy Rucker, it ends in the works innate one of the favored ebook Postsingular Rudy Rucker collections that we have. This is why you remain in the best website to see the amazing book to have.

As Above, So Below Lulu.com

In a time not far from our own, Lawrence sets out simply to build an artificial intelligence that can pass as human, and finds himself instead with one that can pass as a god. Taking the Three Laws of Robotics literally, Prime Intellect makes every human immortal and provides instantly for every stated human desire. Caroline finds no meaning in this life of purposeless ease, and forgets her emptiness only in moments of violent and profane exhibitionism. At turns shocking and humorous, "Prime

Intellect" looks unflinchingly at extremes of human behavior that might emerge when all limits are removed. An international Internet phenomenon, "Prime Intellect" has been downloaded more than 10,000 times since its free release in January 2003. It has been read and discussed in Australia, Canada, Denmark, Germany, Japan, Mexico, the Netherlands, Slovenia, South Africa, and other countries. This Lulu edition is your chance to own "Prime Intellect" in conventional book form.

Juicy Ghosts Macmillan

Stahn, a searcher is hired by Mr. Yukawa, a molecular biologist, to find Della Taze, his missing assistant, and discovers that the Boppers, moon-based robots have a plan to make their own humans

The Big Aha Transreal Books

The lives of scientist Alan Turing and author William Burroughs are turned upside down in this off-the-wall sci-fi caper from Rudy Rucker. What if Alan Turing, founder of the modern computer age, faked his suicide to escape

assassination by the secret service? What if he then became the lover of Beat author William Burroughs? And what if they then mutated into giant shapeshifting slugs, fled the FBI agents tracking them, raised Burroughs's wife—killed in a tragic drunken mishap—from the dead, and, finally, tweaked the H-bombs of Los Alamos to use them for a very different purpose? Turing & Burroughs is a wild beatnik adventure: compulsively readable, hysterically funny, with insane warps and twists—and a bad attitude throughout.

Wetware Minotaur Books

A totalitarian regime has ordered all books to be destroyed, but one of the book burners, Guy Montag, suddenly realizes their merit.

Infinity and the Mind Minotaur Books

After a bizarre scheme on the part of a ruthless computer billionaire and a wacky U.S. president to radically alter the world through sentient nanotechnology goes awry thanks to an autistic boy, mysterious giant humanoids from another quantum universe arrive on Earth with plans to tidy up humankind's mess. Reprint. 10,000 first printing.

Software Macmillan

In the year 2953, artificial lifeforms called "moldies" and humans who resist prejudice are banished to the Moon, and as they strive to create an eden-like environment, intergalactic forces threaten to destroy the carefully structured world. Reprint.

The Last Books of H. G. Wells Ballantine Books

The fourth in Jess Montgomery's evocative Kinship series, The Echoes combines exquisite storytelling with extraordinary crime plotting. "A beautifully written tour de force." —Linda Castillo on The Stills As July 4, 1928 approaches, Sheriff Lily Ross and her family look forward to the opening of an amusement park in a nearby town,

created by Chalmer Fitzpatrick—a veteran and lumber mill owner.

When Lily is alerted to the possible drowning of a girl, she goes to investigate, and discovers schisms going back several generations, in an ongoing dispute over the land on which Fitzpatrick has built the park. Lily's family life is soon rattled, too, with the revelation that before he died, her brother had a daughter, Esme, with a woman in France, and arrangements have been made for Esme to immigrate to the U.S. to live with them. But Esme never makes it to Kinship, and soon Lily discovers that she has been kidnapped. Not only that, but a young woman is indeed found murdered in the fishing pond on Fitzpatrick's property, at the same time that a baby is left on his doorstep. As the two crimes interweave, Lily must confront the question of what makes family: can we trust those we love? And what do we share, and what do we keep secret?

Mind Tools Eos

Peter Bruegel's paintings---a peasant wedding in a barn, hunters in the snow, a rollicking street festival, and many others---have long defined our idea of everyday life in sixteenth century Europe. They are classic icons of a time and place in much the same way as Norman Rockwell's depictions of twentieth-century America. We know relatively little about Bruegel, but after years of research, novelist Rudy Rucker has built upon what is known and has created for us the life and world of a true master who never got old. In sixteen chapters, each headed by a reproduction of one of the famous works, Rucker brings Bruegel's painter's progress and his colorful world to vibrant life, doing for Bruegel what the best-selling Girl with a Pearl Earring did for Vermeer. We follow the artist from the winding streets of Antwerp and Brussels to the glowing skies and

decaying monuments of Rome and back. He and his friends, the cartographer Ortelius and Williblad Cheroo, an American Indian, are as vivid on the page as the multifarious denizens of Bruegel's unforgettable canvases. Here is a world of conflict, change, and discovery, a world where Carnival battles Lent every day, preserved for us in paint by the engaging genius you will meet in the pages of *As Above, So Below*. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Ware Tetralogy Running Press

Activating an experimental machine on New Year's Eve, Joe Cube is contacted by Momo, a woman from the fourth dimension who promised to make him rich if he will help her with a special project.

Reprint.

Hylozoic Transreal Books

One of the founders of the cyberpunk genre of science fiction and a writer of what he calls "transrealist" fiction chronicles his life, describing his struggles to publish his early novels, his work as a professor of mathematics, and his life within the counterculture.

Good Night, Moon Princeton University Press

"Juicy Ghosts" is a fast-paced adventure novel, with startling science, engaging dialog-and a happy ending. The novel treats near-future versions of telepathy and immortality. It's also a redemptive political tale, reacting to the chaos of the 2020 US presidential election. The tone is hip, bright, and darkly comic, with generous helpings of Rucker's SF surrealism. Romances interweave the tale.

The Fourth Dimension: Toward a Geometry of Higher Reality Macmillan
Nine wild, weird and wondrous stories, written together by Rucker and

Sterling. What do you get if two cyberpunk masters spend thirty years writing tales about transreally warped versions of themselves? A unique perspective on giant ants, flying jellyfish, Soviet rocketeers, runaway genomics, Silicon Valley, and the death of the Universe. With notes by the authors and an introduction by Rob Latham.

Spaceland Perennial

Downriver is an evocative, gorgeously written short story: the tale of one woman's past—and her inability to escape it—from Jess Montgomery, author of the Kinship series. "Now that I'm dying, I must decide what to do about the necklace." In 1939, many years ago, Rona Carter was a shy, lonely girl. Nothing like the pretty, popular Emily—the golden girl of Liberty, Ohio. Emily, whose body was found in the river. Now, the legend of Emily's death has lived on in Rona, in the town, and in the tiger's eye necklace that Emily's mother gave her. Forced to reckon with her own mortality, Rona must decide whether to share a secret long kept buried—or take it to her grave.

Titan Eos

One of the most talented contemporary authors of cutting-edge math and science books conducts a fascinating tour of a higher reality, the fourth dimension. Includes problems, puzzles, and 200 drawings. "Informative and mind-dazzling." — Martin Gardner.

Turing & Burroughs Createspace Independent Publishing Platform

A detailed description of what the fourth dimension would be like.
