The new edition of American Pageant, the leading program for AP U.S. history, now reflects the redesigned AP Course and Exam that begins with the 2014-2015 school year. The 16th edition helps prepare students for success on the AP Exam by 1) helping them practice historical thinking skills, pulling together concepts with events, and 2) giving them practice answering questions modeled after those they'll find on the exam. The new edition adds a two-page opener/preview to every chapter, guiding students through the main points of the chapter and using questions and elements tied to the AP Curriculum Framework to help them internalize the chapter more conceptually. Also new are additional End-of-Part multiple-choice and short answer questions reflecting the changes to the exam. Practice DBQs and other free response essay questions will still be found at the back of the book.

Postwar Oxford University Press

In the popular stereotype of post-World War II America, women abandoned their wartime jobs and contentedly retreated to the home. This work unveils the diversity of postwar women, showing how far women departed from this one-dimensional image.

Popular Culture in the Age of White Flight Princeton University Press

The middle class is often viewed as the heart of American society, the key to the country's democracy and prosperity. Most Americans believe they belong to this group, and few politicians can hope to be elected without promising to serve the middle class. Yet today the American middle class is increasingly seen as under threat. In *The American Middle Class: A Cultural History*, Lawrence R. Samuel charts the rise and fall of this most definitive American population, from its triumphant emergence in the post-World War II years to the struggles of the present day. Between the 1920s and the 1950s, powerful economic, social, and political factors worked together in the U.S. to forge what many historians consider to be the first genuine mass middle class in history. But from the cultural convulsions of the 1960s, to the 'stagflation' of the 1970s, to Reaganomics in the 1980s, this segment of the population has been under severe stress. Drawing on a rich array of voices from the past half-century, *The American Middle Class* explores how the middle class, and ideas about it, have changed over time, including the distinct story of the black middle class. Placing the current crisis of the middle class in historical perspective, Samuel shows how the roots of middle-class troubles reach back to the cultural upheaval of the 1960s. *The American Middle Class* takes a long look at how the middle class has been winnowed away and reveals how, even in the face of this erosion, the image of the enduring middle class remains the heart and soul of the United States.

The American Past: A Survey of American History NYU Press

The idea of America has always encouraged apocalyptic visions. The 'American Dream' has not only imagined the prospect of material prosperity; it has also imagined the end of the world. 'Final forecasts' constitute one of America's oldest literary genres, extending from the eschatological theology of the New England Puritans to the revolutionary discourse of the early republic, the emancipatory rhetoric of the Civil War, the anxious fantasies of the atomic age, and the doomsday digital media of today. For those studying the history of America, renditions of the apocalypse are simply unavoidable. This book brings together two dozen essays by prominent scholars that explore the meanings of apocalypse across different periods, regions, genres, registers, modes, and traditions of American literature and culture. It locates the logic and rhetoric of apocalypse at the very core of American literary history.

The Americans, Grades 9-12 Reading Study Guide John Wiley & Sons

The main tide of international relations scholarship on the first years after World War II sweeps toward Cold War accounts. These have emphasized the United States and USSR in a context of geopolitical rivalry, with concomitant attention upon the bristling security state. Historians have also

extensively analyzed the creation of an economic order (Bretton Woods), mainly designed by Americans and tailored to their interests, but resisted by peoples residing outside of North America, Western Europe, and Japan. This scholarship, centered on the Cold War as vortex and a reconfigured world economy, is rife with contending schools of interpretation and, bolstered by troves of declassified archival documents, will support investigations and writing into the future. By contrast, this book examines a past that ran concurrent with the Cold War and interacted with it, but which usefully can also be read as separable: Washington in the first years after World War II, and in response to that conflagration, sought to redesign international society. That society was then, and remains, an admittedly amorphous thing. Yet it has always had a tangible aspect, drawing self-regarding states into occasional cooperation, mediated by treaties, laws, norms, diplomatic customs, and transnational institutions. The U.S.-led attempt during the first postwar years to salvage international society focused on the United Nations Relief and Rehabilitation Administration, the Acheson-Lilienthal plan to contain the atomic arms race, the Nuremberg and Tokyo tribunals to force Axis leaders to account, the 1948 Genocide Convention, the 1948 Universal Declaration of Human Rights, and the founding of the United Nations. None of these initiatives was transformative, not individually or collectively. Yet they had an ameliorative effect, traces of which have touched the twenty-first century—in struggles to curb the proliferation of nuclear weapons, bring war criminals to justice, create laws supportive of human rights, and maintain an aspirational United Nations, still striving to retain meaningfulness amid world hazards. Together these partially realized innovations and frameworks constitute, if nothing else, a point of moral reference, much needed as the border between war and peace has become blurred and the consequences of a return to unrestraint must be harrowing.

The Last Bugler: Experiences of a Private in the 79th Infantry Division, Europe, World War II Signet

Galbraith's classic on the "economics of abundance" is, in the words of the New York Times, "a compelling challenge to conventional thought." With customary clarity, eloquence, and humor, Galbraith cuts to the heart of what economic security means (and doesn't mean) in today's world and lays bare the hazards of individual and societal complacency about economic inequity. While "affluent society" and "conventional wisdom" (first used in this book) have entered the vernacular, the message of the book has not been so widely embraced—reason enough to rediscover *The Affluent Society*. [American Pageant, Volume 1](#) Routledge

THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis. Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1-41); Volume 1: To 1877 (Chapters 1-22); Volume 2: Since 1865 (Chapters 22-41). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

"In *Popular Culture in the Age of White Flight*, Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States. Avila's work helps us see how and why the postwar suburb produced the political culture of 'balanced budget conservatism' that is now the dominant force in politics, how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces."—George Lipsitz, author of *The Possessive Investment in Whiteness*

[A Companion to American Women's History](#) Cengage Learning

Merriam Press World War II Memoir This is the story of an inductee into the Army during World War II and his ventures from basic training into and through combat and assignment to postwar duties during which he remained a PFC. It is a view of the war in Europe from the invasion of Africa through the postwar period until the occupation forces were established in Germany and the inductees brought home. It refutes or adds to some stories by high ranking civilian officials and Army officers that have been published and tells the story as seen from a very low level. It recognizes heroes and others without blatantly condemning anyone other than stating what actually happened by personal witness. The reader can draw his own conclusions regarding right or wrong. The author offers this story as part of history and to show that with the best of publicized intentions the facts may vary from those reported. With the goal of obtaining personal recognition there have been situations to be recorded and evaluated against publicized stories written for profit or personal gain. In so doing the author intends to offer entertaining reading and food for thought along with what really happened by his own views on the scenes in which he was involved. Contents Preface 79th Infantry Division: The Lorraine Cross Division Chapter 1: Induction Into the Army Chapter 2: Basic Training Adventures Chapter 3: Preparation for Going Overseas Chapter 4: Brief Stop in North Africa Chapter 5: Adventures in Italy Chapter 6: Invasion of Southern France Chapter 7: Army Hospital in Draguignon Chapter 8: Train Trip Up the Rhone Valley Chapter 9: Heading for Combat Chapter 10: Christmas on the Front Line Chapter 11: The Battle for Alsace Villages Chapter 12: Preparation for Crossing the Rhine Chapter 13: Moving Up To and Crossing the Rhine Chapter 14: Clearing the Ruhr Valley Chapter 15: The Last Battle of the Ruhr Valley Chapter 16: Occupying the Ruhr Valley Cities Chapter 17: Post-War Occupation—Czechoslovakia Chapter 18: Leaving the Infantry Chapter 19: Events Within the Information and Education Divisions Chapter 20: Heading Home Chapter 21: Adjusting to Civilian Life Postlude Biography: Hubert O. Traces the roots of the contemporary crisis of progressive liberalism deep into the racial past of America. Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a 'color blind' conception of individual rights is inaccurate & misleading.

A Companion to Post-1945 America Currency

In this signal work of history, Bancroft Prize winner and Pulitzer Prize finalist Lizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life. Trumpeted as a means to promote the general welfare, mass consumption quickly outgrew its economic objectives and became synonymous with patriotism, social equality, and the American Dream. Material goods came to embody the promise of America, and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our "Consumers' Republic" Lizabeth Cohen has written a bold, encompassing, and profoundly influential book.

Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

Not June Cleaver *A History of the Book in America*

Cool. It was a new word and a new way to be, and in a single generation, it became the supreme compliment of American culture. The *Origins of Cool in Postwar America* uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style. As Joel Dinerstein reveals in this dynamic book, cool began as a stylish defiance of racism, a challenge to suppressed sexuality, a philosophy of individual rebellion, and a youthful search for social change. Through eye-opening portraits of iconic figures, Dinerstein illuminates the cultural connections and artistic innovations among Lester Young, Humphrey Bogart, Robert Mitchum, Billie Holiday, Frank Sinatra, Jack Kerouac, Albert Camus, Marlon Brando, and James Dean, among others. We eavesdrop on conversations among Jean-Paul Sartre, Simone de Beauvoir, and Miles Davis, and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the "white Negro" and black cool. We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir, jazz, and existentialism. Out of this mix, Dinerstein sketches nuanced definitions of cool that unite concepts from African-American and Euro-American culture: the stylish stoicism of the ethical rebel loner; the relaxed intensity of the improvising jazz musician; the effortless, physical grace of the Method actor. To be cool is not to be hip and to be hot is definitely not to be cool. This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir, jazz, existential literature, Method acting, blues, and rock and roll. Dinerstein reveals that they came together to create something completely new—and that something is cool.

From the War on Poverty to the War on Crime University of Chicago Press

This *Concise Companion* is a guide to the creative output of the United States in the postwar period, in its diverse energies, shapes and forms. Embraces diversity, covering Vietnam literature, gay and lesbian literature, American Jewish fiction, Italian American literature, Irish American writing, emergent ethnic literatures, African American writing, jazz, film, drama and more. Shows how different genres and approaches opened up creative possibilities and interacted in the postwar period. Portrays the postwar United States split by differences of wealth and position, by ethnicity and race, and by agendas of left and right, but united in the intensity of its creative drive.

Race and the Making of American Liberalism Vintage

Covers the breadth of American Women's history, including the colonial family, marriage, health, sexuality, education, immigration, work, consumer culture, and feminism. Surveys and evaluates the best scholarship on every important era and topic. Includes expanded bibliography of titles to guide further research.

The Children's Culture Reader Temple University Press

Reading across the disciplines of the mid-century university, this book argues that the political shift in postwar America from consensus liberalism to New Left radicalism entailed as many continuities as ruptures. Both Cold War liberals and radicals understood the university as a privileged site for "doing politics," and both exiled homosexuality from the political ideals each group favored. Liberals, who advanced a politics of style over substance, saw gay people as unable to separate the two, as incapable of maintaining the opportunistic suspension of disbelief on which a tough-minded liberalism depended. Radicals, committed to a politics of authenticity, saw gay people as hopelessly beholden to the role-playing and duplicity that the radicals condemned in their liberal forebears. *Camp Sites* considers key themes of postwar culture, from the conflict between performance and authenticity to the rise of the meritocracy, through the lens of camp, the underground sensibility of pre-Stonewall gay life. In so doing, it argues that our basic assumptions about the social style of the postwar milieu are deeply informed by certain presuppositions about homosexual experience and identity, and that these presuppositions remain stubbornly entrenched despite our post-Stonewall consciousness-raising.

A Concise Companion to Postwar American Literature and Culture Univ of California Press

By many measures—commonsensical or statistical—the United States has not been more divided politically or economically in the last hundred years than it is now. How have we gone from the striking bipartisan cooperation and relative economic equality of the war years and post-war period to the extreme inequality and savage partisan divisions of today? In this sweeping look at American politics from the Depression to the present, Doug McAdam and Karina Kloos argue that party politics alone is not responsible for the mess we find ourselves in. Instead, it was the ongoing interaction of social movements and parties that, over time, pushed Democrats and Republicans toward their ideological margins, undermining the post-war consensus in the process. The Civil Rights struggle and the white backlash it provoked reintroduced the centrifugal force of social movements into American politics, ushering in an especially active and sustained period of movement/party dynamism, culminating in today's tug of war between the Tea Party and Republican establishment for control of the GOP. In *Deeply Divided*, McAdam and Kloos depart from established explanations of the conservative turn in the United States and trace the roots of political polarization and economic inequality back to the shifting racial geography of American politics in the 1960s. Angered by Lyndon Johnson's more aggressive embrace of civil rights reform in 1964, Southern Dixiecrats abandoned the Democrats for the first time in history, setting in motion a sustained regional realignment that would, in time, serve as the electoral foundation for a resurgent and increasingly more conservative Republican Party.
