Glenwood Generating Station is a power station in Glenwood Landing, New York owned by National Grid plc. It is mainly known for being the former site of an architecturally significant 1920s brick power station. That building and an adjacent 1950s station were demolished over the course of 2013 to 2015, due to their obsolescence as well as the excessive cost of safely retaining the building ...

Power plant engineering or power station
engineering is a division of power engineering, and
is defined as "the engineering and technology
required for the production of central station
electric power." The field is focused on the
generation of power for industries and
communities, not for household power production.
The field is an interdisciplinary field, using the
theoretical base of both ...
