** PRE-ORDER NIGHTS OF PLAGUE, THE NEW NOVEL FROM ORHAN PAMUK **

Winner of the Nobel Prize for Literature Winner of the International IMPAC Dublin Award 'Wonderful' The Spectator 'Magnificent' Observer 'Sumptuous' New Yorker 'Unforgettable' Guardian My Name is Red is an unforgettable murder mystery, set amid the splendour of sixteenth century Istanbul, from the Nobel prizewinning author In the late 1590s, the Sultan secretly commissions a great book: a celebration of his life and his

empire, to be illuminated by the best artists of the day - in the European manner. At a time of violent fundamentalism, however, this is a dangerous proposition. Even the illustrious circle of artists are not allowed to know for whom they are working. But when one of the miniaturists is murdered, their Master has to seek outside help. Did the dead painter fall victim to professional rivalry, romantic jealousy or religious terror? With the Sultan demanding an answer within three days, perhaps the clue lies somewhere in the half-finished pictures . . . Orhan Pamuk is one of the world's leading contemporary novelists and in *My Name is Red*, he fashioned an unforgettable tale of suspense, and an artful meditation on love and deception.

The First Great Powers Houghton Mifflin Harcourt

The inaugural volume of Library of America 's Ursula K. Le Guin edition gathers her complete Orsinian writings, enchanting, richly imagined historical fiction collected here for the first time.

Written before Le Guin turned to science fiction, the novel *Malafrena* is a tale of love and duty set in the central European country of Orsinia in the early nineteenth century, when it is ruled by the Austrian empire. The stories originally published in *Orsinian Tales* (1976) offer brilliantly rendered episodes of personal drama set against a history that spans Orsinia's emergence as an independent kingdom in the twelfth century to its absorption by the eastern Bloc after World War II. The volume is rounded out by two additional stories that bring the history of Orsinia up to 1989, the poem "Folksong from the Montayna Province," Le Guin's first published work, and two never before published songs in the Orsinian language.

LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

The Tough Guide to Fantasyland Library of America

Scattered among poor, desolate farms, the clans of the Uplands possess gifts. Wondrous gifts: the ability—with a glance, a gesture, a word—to summon animals, bring forth fire, move the land. Fearsome gifts: They can twist a limb, chain a mind, inflict a wasting illness. The Uplanders live in constant fear that one family might unleash its gift against another. Two young people, friends since childhood, decide not to use their gifts. One, a girl, refuses to bring animals to their death in the hunt. The other, a boy, wears a blindfold lest his eyes and his anger kill. In this beautifully crafted story, Ursula K. Le Guin writes of the proud cruelty of power, of how hard it is to grow up, and of how much harder still it is to find, in the world's darkness, gifts of light.

[Some Aspects of Separation of Powers](#) Houghton Mifflin Harcourt

In *On Decoloniality* Walter D. Mignolo and Catherine E. Walsh explore the hidden forces of the colonial matrix of power, its origination,

transformation, and current presence, while asking the crucial questions of decoloniality's how, what, why, with whom, and what for. Interweaving theory-praxis with local histories and perspectives of struggle, they illustrate the conceptual and analytic dynamism of decolonial ways of living and thinking, as well as the creative force of resistance and re-existence. This book speaks to the urgency of these times, encourages delinkings from the colonial matrix of power and its "universals" of Western modernity and global capitalism, and engages with arguments and struggles for dignity and life against death, destruction, and civilizational despair.

A Woman's Overland Journal to California Library of America

Ursula K. Le Guin is the one modern science fiction author who truly needs no introduction.

In the half century since *The Left Hand of Darkness*, her works have changed not only the face but the tone and the agenda of SF, introducing themes of gender, race, socialism, and anarchism, all the while thrilling readers with trips to strange (and strangely familiar) new worlds. She is our exemplar of what fantastic literature can and should be about. Her Nebula winner *The Wild Girls*, newly revised and presented here in book form for the first time, tells of two captive "dirt children" in a society of sword and silk, whose determination to enter "that possible even when unattainable space in which there is room for justice" leads to a violent and loving end. Plus: Le Guin's scandalous and scorching Harper's essay, "Staying Awake While We Read," (also collected here for the first time) which demolishes the pretensions of corporate publishing and the basic assumptions of capitalism as well. And of course our *Outspoken Interview*, which promises to reveal the hidden dimensions of America's best-known SF author. And delivers.

The first comprehensive history of the Lakota Indians and their profound role in shaping America's history Named One of the New York Times Critics' Top Books of 2019 - Named One of the 10 Best History Books of 2019 by Smithsonian Magazine - Winner of the MPIBA Reading the West Book Award for narrative nonfiction "Turned many of the stories I thought I knew about our nation inside out."--Cornelia Channing, Paris Review, Favorite Books of 2019 "My favorite non-fiction book of this year."--Tyler Cowen, Bloomberg Opinion "A brilliant, bold, gripping history."--Simon Sebag Montefiore, London Evening Standard, Best Books of 2019 "All nations deserve to have their stories told with this degree of attentiveness"--Parul Sehgal, New York Times This first complete account of the Lakota Indians traces their rich and often surprising history from the early sixteenth to the early twenty-first century. Pekka Hämäläinen explores the Lakotas' roots as marginal hunter-gatherers and reveals how they reinvented themselves twice: first as a river people who dominated the Missouri Valley, America's great commercial artery, and then--in what was America's first sweeping westward expansion--as a horse people who ruled supreme on the vast high plains. The Lakotas are imprinted in American historical memory. Red Cloud, Crazy Horse, and Sitting Bull are iconic figures in the American imagination, but in this groundbreaking book they emerge as something different: the architects of

Lakota America, an expansive and enduring Indigenous regime that commanded human fates in the North American interior for generations. Hämäläinen's deeply researched and engagingly written history places the Lakotas at the center of American history, and the results are revelatory. Kingdom of Characters Cambridge University Press

How an antisemitic legend gave voice to widespread fears surrounding the expansion of private credit in Western capitalism The Promise and Peril of Credit takes an incisive look at pivotal episodes in the West's centuries-long struggle to define the place of private finance in the social and political order. It does so through the lens of a persistent legend about Jews and money that reflected the anxieties surrounding the rise of impersonal credit markets. By the close of the Middle Ages, new and sophisticated credit instruments made it easier for European merchants to move funds across the globe. Bills of exchange were by far the most arcane of these financial innovations. Intangible and written in a cryptic language, they fueled world trade but also lured naive investors into risky businesses. Francesca Trivellato recounts how the invention of these abstruse credit contracts was falsely attributed to Jews, and how this story gave voice to deep-seated fears about the unseen perils of the new paper economy. She locates the legend's earliest version in a seventeenth-century handbook on maritime law and traces its legacy all the way to the work of the founders of modern social theory—from Marx to Weber and Sombart. Deftly weaving together economic, legal, social, cultural, and intellectual history, Trivellato vividly describes how Christian writers drew on the story to define and redefine

what constituted the proper boundaries of credit in a modern world increasingly dominated by finance.

INSTANT NEW YORK TIMES

BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a

far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

This book explores the paradoxes of Self–Other relations in the field of tourism. It particularly focuses on the 'power' of different forms of 'Otherness' to seduce and to disrupt, and, eventually, also to renew the social and cosmological orders of 'modern' culture and everyday life. Drawing on a series of ethnographic case studies, the contributors investigate the production, socialisation and symbolic encompassment of different 'Others' as a political and also an economic resource to govern social life in the present. The volume provides a comparative inductive study on the modernist philosophical concepts of time, 'Otherness', and the self in practice, and relates it to contemporary tourism and mobility.
