SH-E - Practical Shutdown & Turnaround Management for ...

In any industrial plant, inspection and minor maintenance work are taking place “on line” but it has to undergo a scheduled process outage for the major maintenance work and this outage is referred to as “plant shutdown”. Turnaround management is primarily concerned with repair, replacement, alteration and refurbishment of malfunctioning items whereas project management ensures creation of something new.

*Practical Shutdown & Turnaround Management Training ...*

If turnarounds are not properly planned, managed and controlled, companies run

the risks of serious budget overruns, costly schedule delays and negative impacts on customers. In this seminar, you will learn: How to develop a practical shutdown strategy; Management of all stages of the shutdown process

company's IT asset management processes were resulting in excessive maintenance costs and needed to be managed so as to reduce the risks associated with ineffectively tracking assets. In 2010, Harley-Davidson deployed IBM Tivoli Asset Management for IT domestically, and in 2011 the company will increase the breadth and depth of this solution.

resources out there, however, with tips, insights,  
and management strategies for getting the job  
done right.  
Pulse 2011 Agenda - Welcome to Cornell's  
Asset Management ...  
A turnaround is any scheduled shutdown of  
a facility or the units within a facility to  
perform maintenance and/or capital work.  
Although most process industry owners  
understand what is meant by the term  
turnaround, other terms—overhaul, T&I  
(test & inspection), stop, and (somewhat  
confusing) shutdown—are also used to  
denote the same event.
