## Praxis II Physical Education: Content Knowledge (0091) Exam Secrets Study Guide Test Prep Books

This is a timely and affordable study guide for the PRAXIS 5001 teacher certification test. Testing of new standards begins August 2015. This is the only product on the market that has EXPANDED, aligned content and a full sample test with answer explanations. Many states -- but not all -- that formerly required 5031 have adopted test 5001. Changes include almost doubling the coverage of content. The skills have expanded in ELA and math. The test formerly had 210 questions and now has 235 questions. The number of social science questions will be reduced by ten questions. This product provides a highway to success, quickly and efficiently gathering more content succinctly, including each of the four subtests, aligned expanded descriptive statements, with their corresponding numerous and authoritative examples. Since Praxis 5001 is an unusually long test, it is in the candidate's best interest to augment this study guide with our additional suite of digital products which include interactive bundled tests that are comprised of questions from three tests, that include time on question as well as time on test. By contrast, this product is not a broad review of subtests with generic videos or generic categories clustered under subtests, because it defeats the purpose of PRAXIS specificity. Our sample test questions are aligned to specific skills. In conclusion, this product is unique because of its specific content, unpacked deliberately, with standards-aligned sample test questions and explanations. Common Core standards have been added."

Contesting Carceral Logic provides an innovative and cutting-edge analysis of how carceral logic is embedded within contemporary society, emphasizing international perspectives, the harms and critiques of using carceral logic to respond to human wrongdoing, and exploring penal abolition thought. With chapters from scholars

---

across many disciplines, people in prison, as well as penal abolition activists, the book explores what a future without carceral logic would look like, as well as how such a future is to be developed. The book is also an exploration of penal abolition thought as it is developing in the twenty-first century. Diverse geographical, cultural, identity and experiential frames inform the book's themes of analysing carceral logic as it harms disparate people in disparate places, creating anti-carceral knowledge, exploring case studies pointing to radical alternatives, and to contesting carceral logic from below. Ultimately, *Contesting Carceral Logic* provides the reader with an alternative and critical perspective from which to reflect on carceral logic, the punitive state and the criminalizing systems that almost exclusively dominate across the world. Finally, it raises the questions of how we are to build communities as well as transform our response to human wrongdoing in ways that are not defined by racism/ethnocentrism, class war and heteropatriarchy. *Contesting Carceral Logic* will be of great interest to not only scholars and activists, but also provides an introduction to key carceral issues and debates for students of penology, criminology, social policy, geography, politics, philosophy, social work and social history programmes in countries all around the world.
