Description :
Cynthia Young's Precalculus, 2nd Edition Binder Ready Version helps to bridge the gap between in-class work and homework by helping students overcome common learning barriers and build confidence in their ability to do mathematics. Young enables students to become independent, successful learners by including multiple exercise types, more opportunities to

use technology, and a themed modeling project that empowers students to apply what they have learned in the classroom to the ...

Precalculus Sullivan 2nd Edition
Thomas Tradler
Holly Carley - Websupport1

These are notes for a course in precalculus, as it is taught at New York City College of Technology - CUNY (where it is offered under the course number MAT 1375). Our approach is calculator based. For this, we will use

the currently
standard TI-84
calculator, and in
particular, many of
the examples will be
explained and
solved with it.
