The Baldrige criteria have been updated and finely tuned for 2005. Reflecting recent events, the new criteria include a focus on an organization's business ethics and governance systems. It asks how a company plans to stay operational during an emergency event, such as a terrorist act or a natural disaster. In total, there are now 33 Areas to address in the 2005 criteria, including an increased focus on leadership, strategic planning, measurement, analysis, knowledge management, process management and business results. The new 14th edition of the Baldrige Award Winning Quality addresses these changes for 2005 and helps you understand what the criteria are. Written in an easy-to-read format by one of the best-known authorities on the Baldrige criteria, Mark Graham Brown, it continues to be the most recognized reference in the field. The book provides a clear and concise explanation on how to prepare for a site visit, its purpose, what the Baldrige examiner looks for, and the questions typically asked during a visit.

Baldrige Award Winning Quality - 15th Edition

Plunkett's InfoTech Industry Almanac presents a complete analysis of the technology business, including the convergence of hardware, software, entertainment and telecommunications. This market research tool includes our analysis of the major trends affecting the industry, from the rebound of the global PC and server market, to consumer and enterprise software, to super computers, open systems such as Linux, web services and network equipment. In addition, we provide major statistical tables covering the industry, from computer sector revenues to broadband subscribers to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. The corporate profile section provides in-depth, one-page profiles on each of the top 500 InfoTech companies. We have used our massive databases to

provide you with unique, objective analysis of the largest and most exciting companies in: Computer Hardware, Computer Software, Internet Services, E-Commerce, Networking, Semiconductors, Memory, Storage, Information Management and Data Processing. We've been working harder than ever to gather data on all the latest trends in information technology. Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies. Purchasers of the printed book or PDF version may receive a free CD-ROM database of the corporate profiles, enabling export of vital corporate data for mail merge and other uses.
