Prelude To A Floating Future

Prelude is an LNG facility moored off Australia's north-west and is the largest floating object ever built It has produced just one LNG cargo in its first three years and has been shut down since February Industry analysts are divided on whether Prelude has a long-term future

Prelude To A Floating Future Wood Mackenzie

SHELL has said its huge floating LNG production plant – the Prelude FLNG facility – is not expected to resume full production this year, following a troubled start for the pioneering facility. Production aboard Prelude – which at 488 m long is the largest ship ever built – was halted in February after an electrical trip and it has not resumed. This fault followed, though was not linked to, an order from Australia’s National Offshore Petroleum Safety and Environmental Management ...
