Inflammation is the body's innate response to injury or insult, including infection, trauma, surgery, burns, and cancer. Certain proteins are released into the bloodstream during inflammation; if their concentrations increase or decrease by at least 25%, they can be used as systemic inflammatory markers. Although there are many inflammatory markers, also known as acute phase

... Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

**Rainbow Resource Center,**

---

**Inc.**

On average, a family will homeschool 2 to 3 children that are close in age at the same time. Therefore, we have formatted the questions as checklist which means that you can choose as many options per category as are pertinent to your family. We understand that you could have multiple favorites per category because each of your children respond differently to various curriculum.
