Prentice Hall Federal Taxation ABC-CLIO

The Second Edition of this renowned treasure trove of information about the most important laws and treaties enacted by the U.S. Congress now deepens its historical coverage and examines an entire decade of new legislation. Landmark Legislation 1774-2012 includes additional acts and treaties chosen for their historical significance or their precedential importance for later areas of major federal legislative activity in the over 200 years since the convocation of the Continental Congress. Brand new chapters expand coverage to include the last five numbered Congresses (10 years of activity from 2003-2012), which has seen landmark legislation in the areas of health insurance and health care reform; financial regulatory reform; fiscal stimulus and the Temporary Asset Relief Program; federal support for stem cell research; reform of federal financial support for public schools and higher education; and much more. Features & Benefits: Each chapter covers one of the numbered Congresses with a historical essay, followed by the major acts of that Congress arranged in chronological order of passage – with each act summarized. A Finder 's Guide summarizes all of the acts and treaties into approximately 40 separate topical policy areas. The work 's extensive bibliography has been expanded and updated. This one-volume resource is a must-have for any public or academic library, especially those with strong American history or political science collections.

The Routledge Companion to Accounting History presents a single-volume synthesis of research in this expanding field, exploring and analysing accounting from ancient civilizations to the modern day. No longer perceived as the narrow study of how a mysterious technique was used in past, the scope of accounting history has widened substantially.

This revised and updated volume moves beyond the history of accounting technologies, accounting theories and practices and the accountants who applied them. Expert contributors from around the world explore the interfaces between accounting and the economy, society, culture and the polity. Accounting history is shown to offer important

insights into such disparate phenomena as the evolution of capitalism, control of labour, gender and family relationships, racial

exploitation, the operation of religious organisations, and the functioning of the state. Illuminating the foundation and development of accounting systems, this updated, classic book opens the field to a new generation of accounting scholars and historians around the world.

Prentice Hall Federal Taxation, 2003 Prentice Hall

The 16th volume scrutinizes the role and influence of accounting within the social struggles of our time, in fields such as ethics, sustainability, and education. The research reveals the ability of using the discipline as a tool for affirmation and empowerment within governance, politics, and social practice.

Prentice Hall's Federal Taxation 2014 Comprehensive, Tax ACT 2012 Final Version, Prentice Hall's Federal Taxation 2014 Comprehensive Prentice Hall

The Meritocracy Myth challenges the widely held American belief in meritocracy—that people get out of the system what they put into it based on individual merit. The third edition has been revised and streamlined, with fresh examples and updated statistical information throughout.

Chapters eight and nine have been combined into a comprehensive chapter about discrimination as a non-merit barrier to upward mobility. The book also features a new section on "The Great Recession." The Meritocracy Myth examines talent, attitude, work ethic, and character as elements of merit, and evaluates the effect of non-merit factors such as social status, race, heritage, and wealth on meritocracy. A compelling book on an often-overlooked topic, The Meritocracy Myth has become a classroom classic to introduce students to this provocative topic.

Prentice-Hall Federal Taxes Prentice Hall

This book focuses on the roles that coercion and persuasion should play in contemporary democratic political systems or societies. A major concern is with the conversational character of democracy. Given the problematic and ambiguous status of the many differences present in contemporary society, the contributors seek to alert us to the danger that an emphasis on reasonable consensus will conceal.
