The Book of Ecclesiastes, like many ancient and modern first-person discourses, generates ambivalent responses in its readers. The book's rhetorical strategy produces both acceptance of, and suspicion towards, the major positions argued by the author. 'Vain rhetoric' aptly describes the persuasive and dissuasive properties of the narrator's peculiar characterization. It also describes how the Book of Ecclesiastes, with its abundant use of rhetorical questions, constant gapping

techniques, and other strategies from the arsenal of ambiguity, is a stunning testimony to the power of the various strategies of indirection to communicate to the reader something of his or her own rhetorical liabilities and limitations, as well as those of the religious community in general.

A Book Worth Reading

Prentice Hall Literature

This book presents new research on the crucial role that imagination plays in contemporary philosophy of fiction. The first part of the book challenges the main paradigm set by Kendall Walton and Gregory Currie, according to which there is a necessary connection between fiction and a prescription that we engage imaginatively with its content. The contributors address the fundamental

questions of how we can define fiction, and especially whether we can define fiction in terms of imagination. The second part focuses on a distinct but related question: can we point to some distinctive experiential features of our engagement with fiction? In the third part, the focus lies on the cognitive value of fiction and on the role that imagination plays in that respect. The chapters in this part discuss the cognitive value of fiction with respect to issues such as the training of the faculty of imagination, phenomenal experience, empathy, and the emotions. The *Philosophy of Fiction* will be of interest to scholars and advanced students working in aesthetics, philosophy of mind, epistemology, and literary studies. The Language and Literature Reader

Feelings and other affective responses to a work of fiction are an important part appreciation and the capacity to inspire such responses is part of what is valuable about literary works of art. Susan L. Feagin's philosophical exploration of appreciation, focusing specifically on its emotional or affective components, asks us to consider aesthetic appreciation as getting the value out of the

work. Appreciation involves exercising abilities. Feagin develops a psychological model for understanding how one becomes emotionally engaged with something one knows is fictional. She stresses the importance of the role of imagination in producing affective responses. Imagination is harnessed by the writer's choice of phrase or depiction of detail. Feagin cites the work of Angela Carter, Molly Keane, Heinrich Böll, Gabriel García Márquez, and draws an extended example from Henry James. She notes that not all responses to a work are relevant or appropriate and discusses a variety of ways responses may be assessed. Even though assessing responses can stifle imagination, and

hence threaten spontaneity and the responses themselves, the value of having affective responses to fiction depends upon our being able to make such assessments. Whatever else we may gain, appreciating a work, getting the value out of it, is one means of extending the capacities of our own imaginations. Each article contains a brief introduction by the editors situating it in the context of developing work in the discipline and glossing it in terms of the section and of the book as a whole. The final section concludes with a 'history and manifesto', written by the editors, which places developments in the area of stylistics within a brief history of the field and

offers a polemical perspective on the future of a growing and influential discipline.

before he stopped writing? Caldwell began his career in the late 1920s and gained fame for revealing the gritty backwoods South in novels such as his seminal *Tobacco Road*. He wrote prolifically, sometimes as much as a book a year. As the editor of this book maintains, perhaps anyone who wrote so much would inevitably stumble. These 12 essays explore a variety of issues. They discuss Caldwell as humorist, social commentator, modernist, and revolutionary novelist. They examine his themes and tropes (political images, social injustice, the environment, ideological struggles) and his use of artistic devices (short stories, cubist

strategies, repetition). A generous bibliography includes not only books on Caldwell but also chapters and forewords, journal articles, essays, news items and obituaries. The reader is encouraged to look at Caldwell with fresh eyes, to press beyond his controversial image, and to compare his works, especially his early ones, to those of any of the top names in literature.
