A distinctly modern look at human geography Described as "fresh, innovative, and intelligent," Human Geography: Places and Regions in Global Context is acclaimed for its global approach, conceptual rigor, engaging real-world applications, and outstanding visual program. Knox and Marston foster awareness of current issues and developing trends from a geographic perspective, and provide a solid foundation in the fundamentals of human geography. The authors integrate compelling local, regional, and global viewpoints to give meaning to people and places. By providing access to the latest ideas, concepts, and theories, the text deepens students' understanding of the interdependence of places and regions in a globalizing world. The Seventh Edition extends Knox/Marston's modern approach, integrating new technology as well as new visual and thematic features relevant to human geography today. Also available with MasteringGeography (tm) MasteringGeography is an online homework, tutorial, and assessment program designed to work with Human Geography to engage students and improve results. Interactive, self-paced activities provide individualized coaching to keep students on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.

World Cultures Prentice Hall

What's your map to human geography? Contemporary Human Geography is a modular springboard into essential human and cultural geography concepts, designed for the modern geography reader. This brief, innovative text explores contemporary human geography with a bold, visual style, with topics organized into self-contained, two-page spreads. Rubenstein's efficient writing presents information clearly without sacrificing high-quality content. The 4th Edition offers new MapMaster 2.0, which is inspired by GIS and leverages recent data from the US Census Bureau, UN, CIA, World Bank, PRB, NOAA, NASA, USGS, and more. It enables readers to analyze and critically think about data through the visualization of mapping. This can help individuals connect critical, global issues to their local geography, addressing key concepts. With thousands of maps to explore, and the ability to upload their own data, readers can fully engage with the content. Also available packaged with Mastering Geography or as an easy-to-use, standalone Pearson eText Mastering(tm) Geography is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. Learn more. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class--motivating them to keep reading, and keep learning. Portable access lets students study on the go, even offline. And, reading analytics offer insight into how students use the eText, helping educators tailor their instruction. The Cultural Landscape National Academies Press

World Geography: Building a Global Perspective is a standards-based program that helps students understand how geography impacts their lives. The story-telling narrative and integrated visuals - combined with user-friendly teacher support and interactive tools - makes it easy to present lessons that are both current and compelling. The program keeps geography relevant through its in-depth, country-by-country coverage, and up-to-date through online current events updates. It presents key concepts through maps and visuals and prepares students for success on geography assessment.

Building a Global Perspective Princeton Review

As political, economic, and environmental issues increasingly spread across the globe, the science of geography is being rediscovered by scientists, policymakers, and educators alike. Geography has been made a core subject in U.S. schools, and scientists from a variety of disciplines are using analytical tools originally developed by geographers. Rediscovering Geography presents a broad overview of geography's renewed importance in a changing world. Through discussions and highlighted case studies, this book illustrates geography's impact on international trade, environmental change, population growth, information infrastructure, the condition of cities, the spread of AIDS, and much more. The committee examines some of the more significant tools for data collection, storage, analysis, and display, with examples of major contributions made by geographers. Rediscovering Geography provides a blueprint for the future of the discipline, recommending how to strengthen its intellectual and institutional foundation and meet the demand for geographic expertise among professionals and the public.

With 4 Practice Tests Barrons Educational Series

For courses in human geography, cultural geography and introductory geography, in departments of geography, anthropology, history and political science. Stressing the dynamism of modern geography, the author studies the distributing populations and activities, and the interrelationships among people and regions.

An Introduction to Ideas in Human Geography Psychology Press

Reading this book is your first step to becoming a competent human geography researcher. Whether you are a novice needing practical help for your first piece of research or a professional in search of an accessible guide to best practice, Conducting Research in Human Geography is a unique and indispensable book to have at hand. The book provides a broad overview of theoretical underpinnings in contemporary human geography and links these with the main research methodologies currently being used. It is designed to guide the user through the complete research process, whether it be a one day field study or a large project, from the nurturing of ideas and development of a proposal, to the design of an enquiry, the generation and analysis of data, to the drawing of conclusions and the presentation of findings.
