“ The most

life is to learn how  
to give out love,  
and to let it come  
in. ” Maybe it was  
a grandparent, or a  
teacher, or a  
colleague. Someone  
older, patient and  
wise, who  
understood you  
when you were  
young and  
searching, helped  
you see the world as  
a more profound  
place, gave you  
sound advice to  
help you make your  
way through it. For  
Mitch Albom, that  
person was his  
college professor  
Morrie Schwartz.  
Maybe, like Mitch,  
you lost track of

this mentor as you  
made your way,  
and the insights  
faded, and the  
world seemed

Albom had that  
second chance. He  
rediscovered  
Morrie in the last  
months of the older  
man ’ s life.  
Knowing he was  
dying, Morrie  
visited with Mitch

Tuesday, just as  
they used to back in

“ The truth is,

BOOK 4, Troll  
Peter and his  
family are busy  
at Troll Hill,  
preparing for  
winter. However,  
the little troll boy

is sad that the  
summer is over.  
But then  
something

He is allowed to

to a farm outside  
the moor to get  
supplies for their  
Midwinter Feast.  
Of course, it's  
done at night time  
when the farmer  
sleeps. There  
Troll Peter meets  
Nissen, the  
friendly Barn  
Gnome. He lives  
in the hayloft of  
the farm, but  
comes down at  
night to take care  
of the barn  
animals, so they  
can thrive well.  
Then on their way  
home over the  
moor, Troll Peter  
also comes to  
know a  
mysterious little  
fellow, called

Willy Wisp. - In  
the end of the  
story the troll  
family is having a  
good time,  
celebrating the  
shortest day of  
the year with a  
yule log crackling  
in the fireplace.  
And after dinner  
they climb to  
stand on top of  
Troll Hill, just to  
enjoy the stillness

special moment.  
It's Midwinter Eve

lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind - that compete for control. The rational mind wants a great beach body; the emotional mind wants that OreO cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light

The Life of Mr. T. Dudley, Several Times Governor of the Colony of Massachusetts. Written, as is Supposed, by Cotton Mather. Edited by C. Deane Lulu.com

A former senior mujahidin figure and an ex-counter-

terrorism analyst cooperating to write a book on the history and legacy of Arab-Afghan fighters in Afghanistan is a remarkable and improbable undertaking. Yet this is what Mustafa Hamid, aka Abu Walid al-Masri, and Leah Farrall have achieved with the publication of their ground-breaking work. The result of thousands of hours of discussions over several years, The Arabs at War in Afghanistan offers significant new insights into the history of many of today's militant Salafi groups and movements. By revealing the real

origins of the Taliban and al-Qaeda and the jostling among the various jihadi groups, this account not only challenges conventional wisdom, but also raises uncomfortable questions as to how events from this important period have been so badly misconstrued.

doorways, scorched there by winged strangers who have crept through a slit in the sky. In a dark and dusty shop, a devil's supply of human teeth grown dangerously low. And in the tangled lanes of Prague, a young art student is about to be caught up in a brutal otherworldly war. Meet Karou. She fills her sketchbooks with monsters that may or may not be real; she's prone to disappearing on mysterious "errands"; she speaks many languages--not all of them human; and her bright blue hair actually grows out of her head that color. Who is she? That is the question that haunts her, and she's about to find

out. When one of the strangers--beautiful, haunted Akiva--fixes his fire-colored eyes on her in an alley in Marrakesh, the result is blood and starlight, secrets unveiled, and a star-crossed love whose roots drink deep of a violent past. But will Karou live to regret learning the truth about herself?

Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

House John Quincy Adams warned Americans not to search abroad for monsters to destroy, yet such figures have frequently habituated the discourses of U.S. foreign policy. This collection of essays focuses on counter-identities in American consciousness to explain how foreign policies and the discourse surrounding them develop. Whether it is the seemingly ubiquitous evil of Hitler during World War II or the more complicated perceptions of communism throughout the Cold War, these essays illuminate the cultural contexts

that constructed rival identities. The authors challenge our understanding of "others," looking at early applications of the concept in the eighteenth century to recent twenty-first century conflicts, establishing how this phenomenon is central to decision making through centuries of conflict. *Between the World and Me* Teacher Created Materials George and Steve accidentally eat all of Betsy's honeycomb for her Earth Day presentation about bees and resolve to find a way to replace the honeycomb before Betsy returns from dance class. *The 48 Laws of Power* (Special

Parenting Matters  
Oxford University Press

The New York Times bestselling, groundbreaking manifesto on the critical school years when parents must learn to allow their children to experience the disappointment and frustration that occur from life's inevitable problems so that they can grow up to be successful, resilient, and self-reliant adults Modern parenting is defined by an unprecedented level of overprotectiveness: parents who rush to school at the

---

whim of a phone call to deliver forgotten assignments, who challenge teachers on report card disappointments, mastermind children's friendships, and interfere on the playing field. As teacher and writer Jessica Lahey explains, even though these parents see themselves as being highly responsive to their children's well being, they aren't giving them the chance to experience failure—or the opportunity to learn to solve their own problems.

Overparenting has the potential to ruin a child's confidence and undermine their education, Lahey reminds us. Teachers don't just teach reading, writing, and arithmetic. They teach responsibility, organization, manners, restraint, and foresight—important life skills children carry with them long after they leave the classroom. Providing a path toward solutions, Lahey lays out a blueprint with targeted advice for handling homework, report cards, social dynamics, and

sports. Most importantly, she sets forth a plan to help parents learn to step back and embrace their children's failures. Hard-hitting yet warm and wise, *The Gift of Failure* is essential reading for parents, educators, and psychologists nationwide who want to help children succeed. *How to Raise an Adult* National Academies Press

Everyday Housekeeping

From the author of *Expecting Better* and *The Family Firm*, an economist's guide to the early years of parenting.

“Both refreshing and useful. With so many parenting theories driving us all a bit batty, this is the type of book that we need to help calm things down.” —LA Times

“The book

information, but it's also a delightful read because Oster is such a good writer.” —NPR  
*With Expecting Better*, award-winning economist Emily Oster spotted a need in the pregnancy market for advice that gave women the information they needed to make the best decision for their own pregnancies. By digging into the data, Oster found that much of the conventional pregnancy wisdom was wrong. In *Cribsheet*, she now tackles an even greater challenge:

decision-making in the early years of parenting. As any new parent knows, there is an abundance of often-conflicting advice hurled at you from doctors, family, friends, and strangers on the internet. From the earliest days, parents get the message that they must make certain choices around feeding, sleep, and schedule or all will be lost. There's a rule—or three—for everything. But the benefits of these choices can be overstated, and the trade-offs can be profound. How do you make your own best

---

decision? Armed with the data, Oster finds that the conventional wisdom doesn't always hold up. She debunks myths around breastfeeding (not a panacea), sleep training (not so bad!), potty training (wait until they're ready or possibly bribe with M&Ms), language acquisition (early talkers aren't necessarily geniuses), and many other topics. She also shows parents how to think through freighted questions like if and how to go back to work, how to think about toddler discipline,

and how to have a relationship and parent at the same time. Economics is the science of decision-making, and Cribsheet is a thinking parent's guide to the chaos and frequent misinformation of the early years. Emily Oster is a trained expert—and mom of two—who can empower us to make better, less fraught decisions—and stay sane in the years before preschool.
