To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

*The Tibetan Book Of Living And Dying* Parallax Press Mindfulness in the Garden offers simple mindfulness verses (gathas) composed to connect the mind and body and to bring the reader/gardener's awareness to the details of the present moment as they work in the garden. These gathas are signposts leading to nature, to the present, and ultimately to one's self through the love and understanding they evoke. The gathas offered with each gardening activity serves to water the seeds of mindfulness within us, and softening and preparing the ground for our ability to be present. Mindfulness in the Garden values weeds as important messengers seeking to bring into close communion our spiritual nature with that of the environment. It likens spiritual practice to cultivating a garden and inspires each person to accept themselves and start where they are, weeds and all. Through the practice of mindful gardening, we invite not only the thriving of the natural world but also the flowering and beauty of the pure land of our true self to emerge. Features black and white botanical illustrations throughout. Introduction by Thich Nhat Hanh, author of *Present Moment Wonderful Moment* Foreword by Wendy Johnson, author of *Gardening at the Dragon's Gate*

Cut through the busyness and anxieties of daily life to discover the simple happiness of living in the present moment, as taught by a world-renowned Zen monk In this book, Thich Nhat Hanh—Zen monk, author, and meditation master—distills the essence of Buddhist thought and practice, emphasizing the power of mindfulness to transform our lives. But true mindfulness, Hanh explains, is not an escape. It is being in the present moment, totally alive and free. Based on a retreat that Thich Nhat Hanh led for Westerners, *You Are Here* offers a range of effective practices for cultivating mindfulness and staying in the present moment—including awareness of breathing and walking, deep listening, and skillful speech. These teachings will empower you to witness the wonder of life and transform your suffering, both within and outside you, into compassion, tenderness, and peace. As Thich Nhat Hanh declares, "the energy of mindfulness is the energy of the Buddha, and it can be produced by anybody." It is as simple as breathing in and breathing out.

To be neither distracted or focused, rigid or flexible, passive or aggressive. Kabat-Zinn led Jackson to Mumford and their partnership began. Mumford has worked with Jackson and each of the eleven teams he coached to become NBA champions. His roster of champion clients has since blossomed way beyond basketball to include corporate executives, Olympians, and athletes in many different sports. Over the years, Thich Nhat Hanh and his monastic community in Plum Village, have developed more and more ways to integrate mindfulness practices into every aspect of their daily life. A few years back Thich Nhat Hanh began to develop gentle exercises based on Yoga and Tai Chi movements. Initially designed as mindful stretching breaks between long periods of sitting meditation, *Mindful Movements* became a popular tool to complement to sitting meditation extending Thich Nhat Hanh's trademark gentle approach to Buddhist teachings into a series of physical movements. These movements enjoy a growing popularity amongst his students and have become integral part of his retreats. These simple and effective

practices are meant to reduce stress and tension to help the practitioner gain the serenity he needs to return to a state of mindfulness. When done as part of a full meditation practice, these movements can address mental, emotional, and physical stress. Offered to the general public for the first time, the Mindful Movements have been lovingly illustrated by one of Thich Nhat Hanh's long-time practitioners, Wietske Vriezen. Drawn in a whimsical and immediately appealing style the booklet presents 10 routines that can be practiced by people of all ages and body types whether they are already familiar with mindfulness practices or not. The Mindful Movements are designed to be accessible to as many people as possible. Far from being another exercise program, Mindful Movements is for all those wanting to add a gentle but physical element to their meditation practice. They can be practiced before or after sitting meditation, at home, or at work - any time you have a few minutes to refresh your body and quiet your mind. For those new to meditation they are a great, non-threatening way to get acquainted with mindfulness as a complete and multifaceted practice.
