Prester John is a 1910 adventure novel by the Scottish author John Buchan. It tells the story of a young Scotsman named David Crawfurd and his adventures in South Africa, where a Zulu

uprising is tied to the medieval legend of Prester John. Plot The setting is contemporaneous with publication: the beginning of the twentieth century. Crawfurd grows up in Kirkcapple, by the North Sea, where he first encounters the antagonist, Laputa, performing a ritual on the beach. Crawfurd's father dies, and he goes to work as a shopkeeper in a place called Blaauwildebeestefontein. Crawfurd comes into contact with a Portuguese man, Henriques, and again with Laputa, and he gradually learns of illegal diamond smuggling and of a planned rising of the native people of the region, including the Zulu people and the Swazi people, led by Laputa. Laputa's skill as a preacher allows him to inspire many tribes across the region to follow him, and he invokes the legend of Prester John and positions himself as the rightful heir and leader who can rise up against colonial rule. Crawfurd learns more about this after meeting Captain Arcoll, who leads the colonial army and police. Using information learnt from having overheard the conversation of Laputa and Henriques, Crawfurd infiltrates the cave where the tribal leaders are gathering and witnesses Laputa commencing the rising, wearing the necklet of Prester John, which legitimises his leadership. Crawfurd is captured, but having managed to relay a message to Captain Arcoll, escapes during an ambush and steals the necklet from the hands of Henriques, who is trying to steal it for himself. After running all night, Crawfurd is climbing a ravine in the escarpment up to the plateau above the berg when he is captured again. But he manages first to hide the necklet, which is made of priceless rubies. After being taken to Laputa's new base, Crawfurd escapes immediate punishment by offering Laputa his knowledge of the location of the necklet in exchange for sparing his life. Laputa, who needs the necklet in order to convince his followers, but has not told anyone of its loss, goes alone with Crawfurd to search for the necklet. In the ravine, Crawfurd narrowly escapes once again and steals Laputa's horse to take him to Arcoll's headquarters. With Laputa separated from his army, Arcoll's forces are able to quell the leaderless uprising. Meanwhile, Crawfurd returns to the cave, where he finds the treacherous Henriques dead outside, having been strangled by Laputa. Entering the cave, Crawfurd meets Laputa, who by now knows that all his plans have failed. Laputa destroys a rock bridge giving access to the cave, and then commits suicide by jumping into an underground river chasm. Crawfurd makes a daring escape by climbing a cascade up and out of the cave. He rejoins Arcoll and is instrumental in bringing about the disarmament of the native uprising and the subsequent peace. With Arcoll's help he is rewarded with a large portion of the treasure hidden in the cave and eventually returns to Scotland a rich man... The legend of Prester John, a wealthy Christian king with a kingdom somewhere outside of the Western European realm, pervaded European thought throughout the Middle Ages. The limited understanding of the unexplored regions of the world and the inability to find his kingdom resulted in shifting versions of the legend. Over the course of the Middle Ages, Europeans believed his kingdom existed in the Far East, India, and, finally, the interior of Africa. The origin of the legend of Prester John is traced to Bishop Otto of Freising in the 12th century. According to the bishop, Prester John descended from one of the three Magi mentioned in the Nativity story of the Bible. The emergence of the legend coincided with the first Crusades of European armies into the Near East. The legend then seems to indicate a hope for a powerful kingdom that could serve as an ally in the European campaign to recapture Jerusalem. The prospect of a Christian king seemed realistic enough that, in the in the 12th century, Pope Alexander III sent a message by envoy to the fabled king; the messenger, however, never returned. In 1165, a letter sent to several European capitals from an Ethiopian ruler fueled the legend; this letter reportedly became known as a letter from Prester John. This letter established a concrete connection between Prester John and Africa. The Courts of the Morning Createspace Independent Publishing Platform South Africa at the turn of the century. Beyond Gold and Diamonds demonstrates the importance of southern Africa to British literature from the 1880s to the 1920s, from the rise of the systematic exploitation of the region's mineral wealth to the aftermath of World War I. It focuses on fiction by the colonial-born Olive Schreiner, southern Africa's first literary celebrity, as well as by H. Rider Haggard, Gertrude Page, and John Buchan, its most influential authorial informants, British authors who spent significant time in the region and wrote about it as insiders. Tracing the ways in which generic innovation enabled these writers to negotiate cultural and political concerns through a uniquely British South African lens, Melissa Free argues that British South African literature constitutes a distinct field, one that overlaps with but also exists apart from both a national South African literary tradition and a tradition of South African literature in English. The various genres that British South African novelists introduced—the New Woman novel, the female colonial romance, the Rhodesian settler romance, and the modern spy thriller—anticipated metropolitan literary developments while consolidating Britain's sense of its own dominion in a time of increasing opposition.
