The UNCITRAL Model Law after Twenty-Five Years: Global Perspectives on International Commercial Arbitration is a celebration of the Model Law's significant contribution to international arbitration law. It assesses and evaluates the Model Law's impact on the development of a universal arbitration law for a complex and mobile transnational community of lawyers, judges and arbitrators. Written from the perspective of counsel, arbitrators, legislators and judges, this collection is bold in its coverage of Model Law practice. It considers questions of legislative implementation; pre-award issues such as the review of arbitral jurisdiction and the production of evidence; post-award issues such as judicial review of arbitral awards; interpretation and harmonization methods; and questions of future reform. This is one of the only books on the market that considers the application of the UNCITRAL Model Law in both great depth and breadth, and from multiple perspectives. It provides critical assessments and evaluations of the impact that the Model Law has had after 25 years in various aspects of the arbitral process. The issues covered pertain to both substantive and procedural elements; theoretical and practical; historical and evolutionary. The UNCITRAL Model Law after Twenty-Five Years: Global Perspectives on International Commercial Arbitration adopts a comparative approach and covers practice in nearly all Model Law countries and many others. As a seminal critique of the progress that the Model Law has made to date, this collection of articles will be of great benefit to judges, arbitrators, lawyers, academics and anyone interested in the future of international commercial arbitration.
