The Principles of  
Economics is Carl  
Menger's landmark  
book and it gives  
insights into the  
founder of the  
heterodox Austrian  
School of Economics.  
I found this book  
quite a refreshing  
read since this book  
is the one where he  
challenged the cost-  
based theory of  
values with his  
theory, marginal  
utility, which gave  
birth to marginalism.
