Principles Of Engineering Thermodynamics Moran

From the leading authors in the field, Michael Moran, Howard
Shapiro, Bruce Munson, and David DeWitt, comes an integrated

introductory presentation of thermodynamics, fluid mechanics, and
heat transfer. The unifying theme is the application of these
principles in thermal systems engineering. Responding to
pressures to reduce credit hours in the curriculum and to ABET-
inspired objectives for more integrated treatment of engineering
topics, this text surveys the field of thermal sciences with ...
