Managerial Finance

...

Managerial Finance is

essentially a  
combination of  
economy and  
accounting. First,  
finance managers  
utilized accounting  
information, cash  
flows, etc., for  
planning and  
distribution of  
finance resources of  
the company.  
Secondly, managers  
use economic  
principles as a guide  
for financial  
decision making that  
favor the interest of  
the organization.
