Risk Management Principles. Risk  
management is a process largely  
influenced by estimates of  
probability, likelihood, potential  
severity, etc.. Clearly, there is  
no certainty that an estimated  
risk event will ever arise.

However, the risk management  
process needs to consider the  
uncertainty or confidence levels  
associated with estimating risk.

Risk management is a human  
activity and it takes place  
within one or more culture  
(organizational culture,  
etc.). Risk managers must be  
aware of the human and  
culture factors that the risk  
management effort takes place  
in and know the influence  
that human and culture  
factors will place on the  
risk management effort.
