In Write Like This: Teaching Real World Writing Through Modeling and Mentor Texts, author and teacher Kelly Gallagher recognizes that writing well starts with teaching students WHY they should write. He believes we need to move beyond the state standards by introducing young writers to real-world discourses and provide them with authentic texts to influence and develop life-long skills. Each chapter focuses on a specific writing purpose: Express and Reflect: View life experiences in reverse to move forward Inform and Explain: State a point and purpose with information to support it Evaluate and Judge: Focus' on the worth of an object, idea, or person and present' it as 'bad or 'good Inquire and Explore: Propose' a problem or question Analyze and Interpret: Examine phenomena that are difficult to understand or explain Take a Stand/Propose a Solution: Persuade audience to particular position and provide' justification' In teaching these lessons, Gallagher provides mentor texts (professional samples as well as

models he has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, Write Like This enables students to become better adolescent writers. More important, the practices found in this book will help our students develop the writing skills they will need to become adult writers in the real world. '

In The Analytical Writing

Adrienne Robins explains

college writing as a process of discovery, as a series of

strategies that any college

student can learn to apply. All

strategies explained in this text are based on sound theories of teaching writing and on the

patterns of successful writers.

Writing and thinking should not be separated, and presenting only the steps without the

accompanying explanation of

how they influence thinking would be of little more help than having no method at all. By

using this text the students will

see as they plan, draft, and revise how their writing helps clarify

their thoughts. This clearly

written and engaging textbook is illustrated by real examples of

student writing and appropriate

cartoons. The second edition was revised and updated based on the

large-scale evaluation of the first edition completed by professors

and students. The new edition

reflects four essential values:

recognizing the diversity of writing processes, the necessity of peer and teacher interaction with the writer on drafts, the integration of writing and reading, and the appropriate uses of technology. Specific features of this second edition include: -new writing samples -electronic citation formats -updated library use chapter with technological guidance -concise paragraph chapter -revised introduction and conclusion chapter -rhetorical as well as grammatical explanations for punctuation usage -new cartoons -exercises drawn from students' papers -a condensed chapter on research papers -and an expanded, and clearer, chapter on special assignments and other writing tasks A Collegiate Press book
