Library Lion Harry N. Abrams

The 180 Days of Problem Solving for Grade K offers daily problem-solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly resource provides thematic units that connect to a standards-based skill that Kindergarten students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards.

The Clapp Drill Book in Arithmetic Corwin Press

For use in schools and libraries only. A little girl finds a stuffed dog in the park and decides to take it home.

Math Trailblazers 2E G4 Teacher Implementation Guide Remedia Publications

Probability for Kids features real-world probability scenarios for students in grades 4-6. Students will encounter problems in which they read about students their age selling magazines for a school fund raiser, concerned about their homeroom assignments, and trying to decode the combination to a safe that their grandfather abandoned, among others, all of which maximizes learning so students gain a deep understanding of concepts in probability. This book will help teachers, parents, and other educators to employ best practices in implementing challenging math activities based on standards. Problem solvers who complete all six activities in the book will understand the six basic principles of probability and be high school ready for discussions in probability. Grades 4-6

Daily Warm-Ups: Problem Solving Math Grade 4 Research Press

Help students write about mathematics content! This 2nd edition resource was created to support College and Career Readiness Standards, and provides in-depth research about content-area literacy instruction, including key strategies to help students write about and comprehend mathematics content. Each strategy includes classroom examples by grade ranges (1-2, 3-5, 6-8 and 9-12) and necessary support materials, such as graphic organizers, templates, or digital resources to help teachers implement quickly and easily. Specific suggestions for differentiating instruction are also provided to help English language learners, gifted students, and students reading below grade level.

Grade 4 Word Problems Houghton Mifflin Harcourt

Did you ever wake up to one of those days where everything is a problem? You have 10 things to do, but only 30 minutes until your bus leaves. Is there enough time? You have 3 shirts and 2 pairs of pants. Can you make 1 good outfit? Then you start to wonder: Why does everything have to be such a problem? Why do 2 apples always have to be added to 5 oranges? Why do 4 kids always have to divide 12 marbles? Why can't you just keep 10 cookies without someone taking 3 away? Why? Because you're the victim of a Math Curse. That's why. But don't despair. This is one girl's story of how that curse can be broken.

Prudy's Problem and How She Solved it Penguin

Teaching and Measuring Cognitive Readiness presents theoretical and empirical findings regarding cognitive readiness and assessments of their impact on adult learning. The term readiness is used in assessing student preparation for K-12 schools, while in the military and in industry, "readiness" denotes preparation to be effective in performing a mission or a job. Cognitive Readiness is viewed through a Knowledge, Skills, and Attributes (KSA) lens.

Teaching and Measuring Cognitive Readiness deals with (a) the primacy of cognitive readiness as attributes or individual difference variables; (b) the need for cognitive readiness instructional and assessment strategies; (c) the need to integrate assessment into cognitive readiness training; (d) the need for theory-driven evaluation studies to increase knowledge and efficacy in teaching cognitive readiness; and (e) the need for a solid psychometric approach to the use of cognitive readiness assessments.

81 Fresh & Fun Critical-thinking Activities Lorenz Educational Press

Sylvester the donkey finds a magic pebble and unthinkingly wishes himself a rock when frightened by a lion. Although safe from the lion, Sylvester cannot hold the pebble to wish himself into a donkey again. Caldecott Medal winner. Full-color illustrations.

Reynold ' s text in this hilarious picture book that shows it ' s all fun and games...until you get too greedy.

Classroom Problems in the Education of Gifted Children Carson-Dellosa Publishing

It's true that state standards often have way too much content and aren't written in a way that enhances classroom instruction and formative assessment. That's why this guide is invaluable for any educator who wants to ensure that standards actually lead to higher student achievement. The authors give you good reasons for why some content standards should be dropped and explain how benchmark statements in standards should be rewritten. Learn how to sequence content and set up grading scales that help facilitate formative assessment and effective instruction. And get clear steps for unpacking and converting standards into guidelines that are much more useful to classroom teachers. To implement this book's much more efficient approach, the authors included over 240 pages of detailed scoring scales and sample measurement topics for k-8 science, math, language arts, social studies, and critical life skills topics for elementary through high school students.

But It's Not My Fault Kendall Hunt

Correlates with the Student Workbook; Reviews the assessed Texas Essential Knowledge and Skills (TEKS) for Mathematics; Provides correct answers and analyses for the Assessments; Correlation charts and skills charts help educators track students ' strengths and weaknesses with STAAR. Includes Practice Tutorial CD for use on screen or IWB. Proceedings Routledge

Our unique step-by-step progression introduces children to a wide variety of word problems that inspire critical thinking. Grade 4 Word Problems focuses on word problems that cover the following topics Division Decimals Using Formulas Mixed Calculations Tables and Graphs Probability for Kids Maupin House Publishing, Inc.

"A reminder that sometimes, there is a good reason to break the rules. . . .This winsome pairing of text and illustration is a natural for storytime." -- SCHOOL LIBRARY JOURNAL (starred review) (Ages 4-7) Miss Merriweather, the head librarian, is very particular about rules in the library. No running allowed. And you must be quiet. But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. And, as it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children at story hour. And he never roars in the library, at least not anymore. But when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. Michelle Knudsen's disarming story, illustrated by the matchless Kevin Hawkes in an expressive timeless style, will win over even the most ardent of rule keepers.

Making Standards Useful in the Classroom Simon and Schuster
