The Crayons' Christmas Scholastic Inc.

In this rhyming story, Kiara learns how to keep going even when things get too hard. Through colorful illustrations and rhythmic rhymes, Kiara reflects on her mistakes and realizes that mistakes help her grow. Instead of avoiding them, she learns from them so she can improve. Do you want your child to learn about perseverance and diligence? Your child will learn how easy it is to get back up after failing. "I Choose to Try Again" is a story with social emotional learning (SEL) in mind. It has been praised by teachers and therapists worldwide. This story told from Kiara's point of view will help open your child's mind to what it feels like to fail, and then try again. Kiara will teach your child how to be mentally strong. With Kiara in real life examples, your child will learn to develop their understanding of their own emotions. Throughout the story, Kiara will show you what perseverance looks like. Teacher and Therapist Toolbox: I Choose is an empowering series curated to empower young children to become aware of big emotions. A new book series developed in tandem with teachers and therapists to help children cope with a range of emotions and teach them that they indeed hold the power to choose their actions and reactions. Try not to say 'never.'. That brainwashes you to fail. It means that you won't have the chance To raise the victory sail. "I Choose to Try Again" was developed alongside counselors and parents to be used as a resource in a

social emotional curriculum.

Solution focused approaches offer proven ways of helping children overcome a whole range of difficulties, from academic problems to mental health issues, by helping them to identify their strengths and achievements. Based on solution focused practice principles, this book illustrates communication skills and playful techniques for working with all children and young people, regardless of any health, learning or development need. It demonstrates how the approach can capture children's views, wishes and worries, and can assist them in identifying their strengths and abilities. The approach encourages positive decision-making, and helps children to overcome challenges, achieve their goals and reach their full potential. The book is packed with case examples, practical strategies, and practice activities. This valuable text will be of great use to a range of practitioners working with children and young people, including social workers, youth workers, counsellors, teachers and nurses.

If I Ran the Zoo Rowman & Littlefield

Ruth the bunny is excited to share the smelly springtime smells of spring with Bruce! But what will Bruce think of all that stink? This Little Bruce Book is perfect for fans of the best-selling Mother Bruce series.

Drawdown Penguin

Gerald tells of the very unusual animals he would add to the zoo, if he were in charge.

**What Do You Do with a Problem?** W W Norton & Company Incorporated

Guide children to new heights with the Creative Problem Solving methods outlined in CPS for Kids. This book will teach your students an exciting and powerful problem-solving method from start to finish. Each step in the process, from finding problems

to finding solutions, is outlined in detail and includes accompanying activities on reproducible pages. Designed for students in grades 2-8, these activities are challenging and interesting. Creative Problem Solving is a process that allows people to apply both creative and critical thinking to find solutions to everyday problems. CPS can eliminate the tendency to approach problems in a haphazard manner and, consequently, prevents surprises and/or disappointment with the solution. Students will learn to work together or individually to find appropriate and unique solutions to real-world problems they may face by using this tested method. Most importantly, they will be challenged to think both creatively and critically as they tackle each problem they face. CPS for Kids includes 30 reproducible classroom activities. Grades 2-8

How to Solve a Problem Penguin

A New York Times Bestseller • A Read with Jenna Today Show Book Club Pick! Named a Best Book of the Year by The New York Times Book Review, The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, BuzzFeed, and PopSugar "I can't believe how good this book is.... It's wholly original. It's also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and

funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire." —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, New York Times Book Review From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.

*Teaching Children to Clean* Houghton Mifflin Harcourt

Therapists often despair when considering using Solution-Focused Brief Therapy (SFBT),

so successful with adults, with children. Insoo Kim Berg and Therese Steiner show this despair to be unwarranted. These two master therapists lead readers through a series of conceptual and practical steps that elucidate just how the nonverbal, playful, and creative habits of children can support successful therapy based on the SFBT model. *Children's Solution Work* is necessary reading for anyone who associates with children and takes a concern for their development—clinicians, social workers, teachers, daycare workers, and parents. By focusing on and expanding the bases for engagement and communication between adult and child, Berg and Steiner provide adaptable tools for diagnosis, therapy, and negotiating differences at home. Full of examples and case studies, the *Children's Solution Work* demonstrates creative techniques and strategies for working with children without relying exclusively on language or conceptual thinking. The application of these techniques is discussed in various contexts and situations, including adapting them to suit cases of children with uncommon needs. Berg and Steiner also address questions typically raised by clinicians about the use of SFBT with children and consider the usefulness of this form of SFBT when working with adolescents.

**Leonardo, the Terrible Monster** HarperCollins  
This book is the first to systematically describe the key components necessary to ensure successful implementation of Collaborative Problem Solving (CPS) across mental health settings and non-mental health settings that require behavioral management. This resource is designed by the leading experts in CPS and is focused on the clinical and implementation strategies that have proved most successful within various private and institutional agencies. The book begins by defining the approach before delving into the neurobiological components that are key to understanding this concept. Next, the book covers the best practices for implementation and evaluating outcomes, both in the long and short term. The book concludes with a summary of the

concept and recommendations for additional resources, making it an excellent concise guide to this cutting edge approach. *Collaborative Problem Solving* is an excellent resource for psychiatrists, psychologists, social workers, and all medical professionals working to manage troubling behaviors. The text is also valuable for readers interested in public health, education, improved law enforcement strategies, and all stakeholders seeking to implement this approach within their program, organization, and/or system of care.

*Ada Twist, Scientist* Make Me a World  
Counsels parents and educators on how to best safeguard the interests of children with behavioral, emotional, and social challenges, in a guide that identifies the misunderstandings and practices that are contributing to a growing number of student failures.

What Do You Do with an Idea? Abrams  
Explore STEM concepts through making and tinkering!

*A Bad Case of Stripes* Jessica Kingsley Publishers  
A life lesson that all parents want their children to learn: It's OK to make a mistake. In fact, hooray for mistakes! A mistake is an adventure in creativity, a portal of discovery. A spill doesn't ruin a drawing—not when it becomes the shape of a goofy animal. And an accidental tear in your paper? Don't be upset about it when you can turn it into the roaring mouth of an alligator. An award winning, best-selling, one-of-a-kind interactive book, *Beautiful Oops!* shows young readers how every mistake is an opportunity to make something beautiful. A singular work of imagination, creativity, and paper engineering, *Beautiful Oops!* is filled with pop-ups, lift-the-flaps, tears, holes, overlays, bends, smudges, and even an accordion "telescope"—each demonstrating the magical transformation from blunder to wonder.

*Bringing Down the Moon* Harper Collins  
Inspired by mathematician Ada Lovelace and physicist Marie Curie, this #1 bestseller from author Andrea Beaty and illustrator David Roberts champions STEM, girl power, and women scientists in a rollicking celebration of curiosity, the power of perseverance, and the importance of asking

"Why?" Now a Netflix series! #1 New York Times Bestseller A Wall Street Journal Bestseller A USA Today Bestseller Ada Twist's head is full of questions. Like her classmates Iggy and Rosie (stars of their own New York Times bestselling picture books Iggy Peck, Architect and Rosie Revere, Engineer), Ada has always been endlessly curious. Even when her fact-finding missions and elaborate scientific experiments don't go as planned, Ada learns the value of thinking through problems and continuing to stay curious. Ada is an inquisitive second grader who was born to be a scientist. She possesses an unusual desire to question everything she encounters: a tick-tocking clock, a pointy-stemmed rose, the hairs in her dad's nose, and so much more. Ada's parents and her teacher, Miss Greer, have their hands full as the Ada's science experiments wreak day-to-day havoc. On the first day of spring, Ada notices an unpleasant odor. She sets out to discover what might have caused it. Ada uses the scientific method in developing hypotheses in her smelly pursuit. The little girl demonstrates trial and error, while appreciating her family's full support. In one experiment, she douses fragrances on her cat and attempts to place the frightened feline in the washing machine. For any parent who wants STEM (Science, Technology, Engineering, and Math) to be fun, this book is a source of inspiration that will get children excited about science, school, learning, and the value of asking "Why?" Proven, practical advice for treating and preventing potty problems.

**Nothing to See Here** John Wiley & Sons  
The fun and simple problem-solving guide that took Japan by storm Ken Watanabe originally wrote *Problem Solving 101* for Japanese schoolchildren. His goal was to help shift the focus in Japanese education from memorization to critical thinking, by adapting some of the techniques he had learned as an elite McKinsey consultant. He was amazed to discover that adults were hungry for his fun and easy guide to problem solving and decision making. The book became a surprise Japanese bestseller, with more than 370,000 in print after six months. Now American businesspeople can also use it to master some powerful skills. Watanabe uses sample scenarios to illustrate his techniques, which include logic trees and matrixes. A rock band figures out how to drive up concert attendance. An aspiring animator budgets for a new computer purchase. Students decide which high school they will attend. Illustrated with diagrams and quirky

drawings, the book is simple enough for a middle-schooler to understand but sophisticated enough for business leaders to apply to their most challenging problems.

Problem Solving 101 Springer

"I encourage everyone to read this book." --Dr. Jane Goodall There's no doubt about it--plastic is in almost everything. From our phones and computers to our toys and utensils, plastic is everywhere. But the amount of plastic we throw away is hurting the health of our planet. With *The Last Straw: Kids vs. Plastics*, readers will be fascinated as they learn about the growing plastic problem and meet just a few of the young activists who are standing up and speaking out for change. You'll hear about the "Be Straw Free" campaign, started by nine-year-old Milo Cress. You'll discover how scientists are using jellyfish snot and munching, crunching caterpillars to break down plastic pollution faster. You'll meet Xóchitl Guadalupe Cruz López, the eight-year-old girl turning old plastic bottles into solar heaters. And there are many more incredible kids here, not much older than our readers, who will inspire us all to change the way we think about plastic! With an introduction from Milo Cress and bright, colorful illustrations from Christiane Engel, this collection of brilliant, lyrical nonfiction poems by award-winning

---

author Susan Hood highlights the threat of plastic and the kids who are fighting for change to save our planet. Includes extensive backmatter with a timeline, author's note, further resources, and more.
