Revitalizing Nigerian Education in Digital Age: What most of the papers in this book have in common is the concern for the revitalization of Nigerian education in the digital age through ICT and other modern methods of making education functional and effective in the new modernity. While some of the chapters deal with conceptual issues, others consider the various role of education in this digital age and how Nigeria can be relevant. Most of the chapters present well-researched, detailed, and informative papers on how to reposition Nigerian education in the digital age. Specifically, the role of education in bringing Nigeria's new world about are

discussed in simple language and then taken up in different forms all through the book. Since Nigeria has to act fast and decisively to be on the same development and education wavelength as the other members of today's global family, serious actions are being suggested in this book. Revitalizing Nigerian Education in Digital Age simply means taking the above desiderata seriously. Nigeria has a daunting task here in view of the heavy education burden. This is the message that this book puts across.
