Challenging the Conventions of Grading and Reporting

Routledge
This will be the fourth edition of a time-tested resource for students writing papers in the fields of religion and theology. It provides essential guidance for writing assignments typical in graduate programs in religion and has served as a standard textbook for seminary research courses. The fourth edition is updated to include information on Turabian 9th edition, SBL

Handbook 2nd edition, new resource lists, and additional help with online resources and formatting issues. Most importantly, this new edition is revised from the perspective of information abundance rather than information scarcity. Today's research mindset has shifted from "find anything" and "be satisfied with anything" to "choose intentionally" reliable and credible sources. Quality Research Papers will guide students through an overabundance of online and library resources and help them craft excellent

essays. Sharpen Your Essay Writing Skills Cengage Learning Helps high school students develop the skills necessary to communicate more powerfully through writing and to articulate their thoughts clearly. Develop creative writing skills including descriptive writing, poetry, and short stories. Cultivate the use of expository writing including research papers, analytical essays, problem-solution writing, and firsthand accounts. Learn the art of public speaking, including persuasive speeches, informative speeches, debates, and more. Rhetoric is the ancient skill of persuasive speech used by teachers,

preachers, politicians, and others to influence, incite, and instruct. This course includes basic grammar and writing composition, and mastering this time-honored skill will set your students apart with distinguished written and oral abilities. This 34-week, critical-thinking course will take the student through the writing of numerous academic essays, several public speaking presentations, and an extensive research paper. Dr. Stobaugh weaves biblical concepts, readings, and applications throughout the curriculum to help equip students to stand firm in their faith and become the light of Christ in a deteriorating culture.

The Analytical Writer Rowman & Littlefield
In The Analytical Writing Adrienne

Robins explains college writing as a process of discovery, as a series of strategies that any college student can learn to apply. All strategies explained in this text are based on sound theories of teaching writing and on the patterns of successful writers. Writing and thinking should not be separated, and presenting only the steps without the accompanying explanation of how they influence thinking would be of little more help than having no method at all. By using this text the students will see

as they plan, draft, and revise how their writing helps clarify their thoughts. This clearly written and engaging textbook is illustrated by real examples of student writing and appropriate cartoons. The second edition was revised and updated based on the large-scale evaluation of the first edition completed by professors and students. The new edition reflects four essential values: recognizing the diversity of writing processes, the necessity of peer and teacher interaction with the
