This book helps teachers vanquish the dreaded "fourth-grade slump" by creating an energized and organized learning environment

in which all students can improve their reading and writing strategies. Taking readers into the classroom of an exemplary fourth-grade teacher, the book includes useful assessment tools, differentiation techniques, mini lessons, unit plans, reproducibles, and examples of student work. Special attention is given to meeting the challenges of high-stakes testing without sacrificing instructional quality. Daily Reading Comprehension, Grade 4 Rowman & Littlefield

The National Assessment of Educational Progress' (NAEP) 1992 reading assessment was administered to nationally representative samples of fourth-, eighth-, and twelfth-grade students attending public and private schools, and to state representative public-school samples of fourth graders in 43 jurisdictions. Nearly 140,000 students were assessed in all. Data were summarized on the NAEP reading proficiency scale ranging from 0 to 500, and results were reported according to three achievement levels at each grade--basic, proficient, and advanced. Major findings were that (1) 59% of the fourth graders, 69% of eighth graders, and 75% of twelfth graders reached the basic level or beyond; (2) 25%, 28%, and 37% of grade 4, 8, and 12 students met or exceeded the proficient level, respectively; (3) from 2% to 4% of students at any of the grade levels achieved the "advanced" performance level; (4) fourth graders within the basic level generally understood simple narratives; (5) eighth graders reading within the basic level demonstrated literal understanding of passages; (6) twelfth graders within the basic level were able to interpret aspects of the passages they read and make connections between their reading and their own knowledge; (7) students attending private schools had higher average reading proficiency than students at public schools; (8) considerable variation in performance existed within and across participating states; (9) females had higher average reading proficiency than males at all three grade levels; and (10) fourth graders appeared to be learning reading through varied instructional approaches. (Contains 67 tables and 9 figures of data; a detailed description of anchoring the achievement levels, an overview of procedures, state contextual background factors, and reading passages are attached.) #### Comprehension Passages Guilford Publications

To address Common Core State Standards (CCSS) for reading and language, today 's educators strive to help their students develop higher-level understanding with challenging materials. In this book, we share our method for implementing an integrated strategy approach for helping readers understand expository text. This approach can be used to accompany and extend text structure instruction on the five most commonly used expository text structures: compare and contrast, cause and effect, problem and solution, description, and sequence. Within this approach, we designed a method for using key vocabulary in a way that helps readers think about the structure of the text. To aid in the development of higher-level understanding with challenging materials, this approach integrates other essential reading comprehension components that foster understanding, such as predicting and summarizing. The Structure Sort integrated approach embeds these essential strategies before,

---

during, and after reading to empower students to make connections and build comprehension at all stages of reading.
