The PE (Principles and Practice of Engineering) exam is a test created by the National Council of Examiners for Engineering and Surveying (NCEES). For most disciplines, it is the second test (the first being the FE) that has to be passed in order to become a licensed Professional Engineer. Professional Engineering Exams - Excel Test Prep To become licensed, engineers must complete a four-year college degree, work under a Professional Engineer for at least four years, pass two intensive competency exams and earn a license from their state's licensure board. Then, to retain their licenses, PEs must continually maintain and improve their skills

throughout their careers.
