Offering broad international coverage from top-tier contributors, this volume ranks among the first publications to serve as a comprehensive resource addressing theory and scholarship in

journalism studies. As such, the Handbook of Journalism Studies is a must-have resource for scholars and graduate students working in journalism, media studies, and communication around the globe. The United States and India, 1776-1996 Tata McGraw-Hill Education Journalism entered the twenty-first century caught in a paradox. The world had more journalism, across a wider range of media, than at any time since the birth of the western free press in the

eighteenth century. Western journalists had found themselves under a cloud of suspicion: from politicians, philosophers, the general public, anti-globalization radicals, religious groups, and even from fellow journalists. Critics argued that the news industry had lost its moral bearings, focusing on high investment returns rather than reporting and analysing the political, economic, and social issues of the day. Journalism has a central and profound impact on our worldview; we find it everywhere from newspapers and television, to radio and the Internet. In the new edition of

this thought-provoking and provocative Very Short Introduction, Ian Hargreaves examines the world of contemporary journalism. By looking not only at what journalism has been in the past, but also what it is becoming in the digital age, he examines the big issues relating to reportage, warfare, celebrity culture, privacy, and technology worldwide. Feature Writing Routledge This book provides a coherent account of the Theory of Classification. It discusses the contribution made

by theoreticians like E.C. Richardson, J.D. Brown, W. Hulum, W.C. Berwick Sayers, H.E. Bliss and S.R. Ranganathan. However, the theory put forward by S.R. Ranganathan predominates the whole book because his contribution is far more than anybody else's. Five major schemes of Classification, Library of Congress Classification, Colon Classification and Bliss Bibliographic Classification have also been discussed. Journalism Vikas

This book explores the spiritual transformation of Mohandas Gandhi to the Mahatma. Beginning with his childhood and his desire to search for the Truth from an early age, it explores the influence of western thought on the young lawyer, leading to an inner conflict that drew him to the study of comparative religion. Gandhi came to believe in the equality of all religions and the principles of Truth and non-violence which he applied to every aspect of life, including politics. In his later years he found focus and direction,

understanding the importance of prayer and discipline. As the Mahatma, his life exemplified spiritual practice and Truth. Leading India to freedom through satyagraha, he revealed the importance and relevance of non-violence in every aspect of life. There are not many books in India that can serve as a useful textbook to the students and guides to the practising journalist. It is this lacuna that M. V. Kamath, one of the most prominent Indian Journalists, has tried to fill. This is a book on Indian journalism for Indian journalists, citing examples of Indian writers, Kamath quotes profusely from the writings of Indian editors to illustrate his ideas which considerably adds to the relevance of his work.

Text and Cases Indian India 's Westernized elite, cut off from local traditions, ' want to write a full stop in a land where there are no full stops ' . From that striking insight Mark Tully has woven a superb series of ' stories ' which explore Calcutta, from the Kumbh Mela in Allahabad (probably the biggest religious festival in the world) to the televising of a Hindu epic. Throughout, he combines analysis of major issues with a feel for the

fine texture and human realities of Indian life. The result is a revelation. 'The ten essays, written with clarity, warmth of feeling and critical balance and understanding, provide as lively a view as one can hope for of the panorama of India. ' K. Natwar-Singh in the Financial Times
