Programming From The Ground Up Chapter 4 – Learning to ...

Programming from the Ground Up An introduction to programming using linux assembly language. Chapter 1: Introduction. Welcome to Programming. I love programming. I enjoy the challenge to not only make a working program, but to do so with style. Programming is like poetry. It conveys a message, not only to the computer, but to those who modify ...

3) Find an application on the computer you use regularly. Try to locate a specific feature, and practice breaking that feature out into functions. Define the function interfaces between that feature and the rest of the program. This was more of a visual experience, no specific notes to list. 4) Come up with your own calling convention.
