This book presents the proceedings of the 24th European Conference on Artificial Intelligence (ECAI 2020), held in Santiago de Compostela, Spain, from 29 August to 8 September 2020. The conference was postponed from June, and much of it conducted online due to the COVID-19 restrictions. The conference is one of the

principal occasions for researchers and practitioners of AI to meet and discuss the latest trends and challenges in all fields of AI and to demonstrate innovative applications and uses of advanced AI technology. The book also includes the proceedings of the 10th Conference on Prestigious Applications of Artificial Intelligence (PAIS 2020) held at the

same time. A record number of more than 1,700 submissions was received for ECAI 2020, of which 1,443 were reviewed. Of these, 361 full-papers and 36 highlight papers were accepted (an acceptance rate of 25% for full-papers and 45% for highlight papers). The book is divided into three sections: ECAI full papers; ECAI highlight papers; and PAIS papers. The topics of

these papers cover all aspects of AI, including Agent-Scheduling; based and Multi-Robotics; Safe, agent Systems; Computational Intelligence; Constraints and Satisfiability; Games and Virtual Environments; Heuristic Search; Human Aspects in AI; Information Retrieval and Filtering; Knowledge Representation and Reasoning; Machine Learning; Multi disciplinary Topics and Applications; Natural Language Processing; Planning and Agent-Scheduling; Explainable, and Trustworthy AI; Semantic Technologies; Uncertainty in AI; and Vision. The book will be of interest to all those whose work involves the use of AI technology. Measuring Metabolic Rates Par "The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how

COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. Theirs is a worrying, yet hopeful analysis. COVID-19 has

created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

This book presents the latest advances in modeling and simulation for human factors research. It reports on cutting-edge simulators such as

virtual and augmented reality, multisensory environments, and modeling and simulation methods used in various applications, including surgery, military operations, occupational safety, sports training, education, transportation and robotics. Based on two AHFE 2020 Virtual Conferences such as the AHFE 2020 Virtual

Conference on Human Factors and Simulation and the AHFE 2020 Virtual Conference on Digital Human Modeling and Applied Optimization, held on July 16-20, 2020, the book serves as a timely reference guide for researchers and practitioners developing new modeling and simulation tools for analyzing or improving human performance.

It also offers a unique resource for modelers seeking insights into human factors research and more feasible and reliable computational tools to foster advances in this exciting field. Forthcoming Books Hachette UK This is the only authoritative textbook on metabolic measurement of animals, ranging in mass from fruit flies to whales. It integrates a rigorous theoretical background with detailed practical guidelines for making

actual measurements in the field and laboratory.

This fundamental work explains in detail systems for active safety and driver assistance, considering both their structure and their function. These include the well-known standard systems such as Anti-lock braking system (ABS), Electronic Stability Control (ESC) or Adaptive Cruise Control (ACC). But it includes also new systems for protecting collisions protection, for changing the lane, or for convenient

parking. The book aims at giving a complete picture focusing on the entire system. First, it describes the components which are necessary for assistance systems, such as sensors, actuators, mechatronic subsystems, and control elements. Then, it explains key features for the user-friendly design of human-machine interfaces between driver and assistance system. Finally, important characteristic features of driver assistance systems for particular vehicles are presented: Systems for commercial vehicles and

motorcycles.

It ' s hard to jump over a hurdle from a standing position. And leadership has its share of hurdles.

Like a track athlete needs to focus on their run up, which includes preparation and training, to jump

over hurdles, leaders must have an effective run up to overcome their hurdles. This book discusses the run up of culture creation and developing relationships while defining what leadership is and outlining characteristics and skills shared by successful leaders.

Readers will develop a more complete definition of leadership through insights, principles, and scenarios shared throughout the book and walk away with an understanding of how to practice

leadership and maximize their effectiveness and potential. Topics covered include sources of leadership and how it is measured; creating alignment and culture; leadership styles; emotional intelligence and decision making; effective communication; coaching and feedback; developing relationships; leading change; and teaching and training. Readers will be exposed to powerful lessons on balancing influence and authority and

taking full ownership and responsibility for their team. They will learn how to favor positives and proaction over negatives and reaction and focus more on asking than telling. They will also learn to avoid the pitfalls of basing consequences on results alone and decisions made based on comfort and convenience. Doctors practice medicine and leaders must practice leadership. This entertaining, insightful, and inspiration book identifies

leadership as a skill and explains how it can be learned, practiced, and improved. Read it and learn what it takes to create an effective leadership run up, overcome hurdles, and take leadership to the next level. THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION.
Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are

sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that

works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren

has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.

In the New York Times bestseller that

the Washington Post called “Lean In for misfits,” Sophia Amoruso shares how she went from dumpster diving to founding one of the fastest-growing retailers in the world. Amoruso spent her teens hitchhiking, committing petty theft, and scrounging in dumpsters for leftover bagels. By age twenty-two she had dropped out of school, and was broke, directionless, and checking IDs in the lobby of an art school—a job she’d taken for the health insurance. It was in that lobby that Sophia decided to start selling vintage clothes on eBay. Flash forward to today, and she’s the founder of Nasty Gal and the founder and CEO of Girlboss. Sophia was never a

typical CEO, or a typical anything, and she 's written #GIRLBOSS for other girls like her: outsiders (and insiders) seeking a unique path to success, even when that path is windy as all hell and lined with naysayers. #GIRLBOSS proves that being successful isn 't about where you went to college or how popular you were in high school. It 's about trusting your instincts and following your gut; knowing which rules to follow and which to break; when to button up and when to let your freak flag fly. " A witty and cleverly told account . . . It 's this kind of honest advice, plus the humorous ups and downs of her rise in online retail, that make the book so

appealing. " —Los Angeles Times
" Amoruso teaches the innovative and entrepreneurial among us to play to our strengths, learn from our mistakes, and know when to break a few of the traditional rules. " —Vanity Fair
" #GIRLBOSS is more than a book . . . #GIRLBOSS is a movement. " —Lena Dunham

To the casual observer, Battista della Paglia is an avid art collector, or perhaps a nimble thief. In reality, the cunning Italian is an agent for Fran ç ois, the King of France, for whom he procures the greatest masterpieces of the day by any means necessary. Embroided in a power struggle with Charles V, the King of Spain, Fran ç ois resolves to rule Europe's burgeoning cultural world. When he sets his

sights on a mysterious sculpture, Battista's search for the elusive objet d'art leads him to a captivating woman on a mission of her own. . . Having spent her life under the controlling eye of her protector, the Marquess of Mantua, Aurelia longs for freedom. And she finds it in Battista. Together, they embark on a journey to find the clues that will lead him to the sculpture-- a venture so perilous it might have spilled from the pen of Dante himself. From the

smoldering depths of Rome to a castle in the sky, the harrowing quest draws them inextricably together. But Aurelia guards a dark secret that could tear them apart--and change the course of history. . . Praise for the novels of Donna Russo Morin "Morin has created a wonderful heroine and painted a brilliant portrait of a neglected court, which will interest fans of the Tudor era."--Publishers Weekly on To Serve a King "History comes to life as Morin
