A project evaluation is usually done for any project that has already been executed by the company's project manager. A project report is made based on the data collected while the project was ongoing and its success rate. However, to create a project evaluation report from scratch, at times, we require a bit of guidance.

Announced by Dr. Frieden in Nov. 2012, the evaluation guidelines are a set of recommendations to inform evaluation planning and implementation. The goal is to increase the use of evaluation data for continuous program improvement Agency-wide. While the emphasis is on CDC practice, most of these recommendations, when implemented, will improve the ways in which partners, grantees, and community-based organizations evaluate and improve their program efforts as well.
