The project scope statement is a frequently used term in Project Management. As stated in the PMP certification course, it belongs to the project management knowledge area called Scope Management. The aim of PMP Scope Management is to define what will be done and what will not be done during the project. This knowledge area has six processes.

[Scope Statement - Project Management Docs](#)

A scope statement or scoping document is one of the most critical pieces of a project, and writing one can be a difficult task for a project manager - no matter what type of project management methodology is being used. But, an effectively written scope statement can help the rest of the project flow along with minimal problems.

The project scope details exactly what will be delivered at the end of the project, and the parameters of the work to be done. The purpose of the project scope is to get your stakeholders and team on the same page. It also provides a concise summary of your meetings, deliverables, and agreements for everyone to refer back to.
